

<u>Explain headed in right direction</u>	<u>Explain headed in wrong direction</u>	<u>Most desirable about Gahanna?</u>	<u>Other comments about the City of Gahanna (if any)</u>
A lot of new construction is going on.		People help each other out.	It's a great place to live. I'm not leaving.
A lot of new jobs and businesses have come to the city and there is supposed to be more coming.		It is a safe place to live and raise children.	
A lot of new things happening like Creekside and it's a nice place to live.		The people are nice. Other than that I can't really say, because I have not been here that long.	
A lot of places to shop and it's growing.		The schools.	
A lot of the improvements in the downtown area are nice, and they are making improvements to the schools.		It's a suburb but has a more of a small community feel with the downtown area and parks.	Keep up the good work. We love living here.
All of the things they have done up in Creekside -- cleaning it up and making it nice.		The quiet, it's low-crime and it's very safe place to live.	
All the building.		The services are good and the people are great.	It's a nice city to live in.
All the improvements are on track and are working.		The school system.	
As far as growth and family.		It's a pretty area. There is a small town feel close to downtown.	No, not that I can think of.

Because Gahanna is growing.	Good location, everything is here if I have to walk.	Traffic lights are not timed right, Havens corner and Hamilton road is the worst, trying to make a left. Water bill is to high, don't like paying for all the new sewers like we are paying for all the systems. It's nice to have something for the teens to do like a teen center that would have parties and activities to keep the teens busy during the winter, also with a low cost or no cost, like for the teens that are too young to work.
Because I like Gahanna. It has a nice location.	The city is a good area.	
Because it keeping up with growth.	The people.	
Because it's an easy town to get around in -- very conveniently located.	The convenience to shopping and downtown.	
Because it's growing, bring in stores.	The location. It's nice and clean and it's a small city. It has a good school system.	
Because it's growing. The schools are good.	I like the people and the schools.	
Because of Creekside it has brought in people into the city and maybe some money,	It's a small town. And the location and the schools are good. So is the housing and the shopping.	

Because of Creekside, but I am concerned that the little shops will survive.	I like the whole area because it is small town life and it still has things to offer.	The way of the workman ship on the re-paving of the roads and fixing the water drainage, seem like we got a bad job done on both of those things. Also, it seems that they care more about fixing the high class first and does a better job in those area than the older section of the city.
Because of Creekside, they're bringing people into the city.	That it is clean.	
Because of the building in the downtown area.	The police force is good. There is a responsive government in Gahanna.	It is a nice city and the city wants the best for us.
Because of the Creekside development.	The schools.	
Because of the new Creekside, they're going to bring in people.	Good location.	
Because taxes are good and it has a nice community.	It's a friendly city and a good location.	
because the city is looking out for the interest of the people	It's home and it's friendly.	
Because the schools are so good and Creekside.	It has a small town atmosphere.	
Because there are many ways be entertained, keep children busy not go out do things.	I love my church, my family and my friends.	
Because they are developing the city with new restaurants, and new businesses	The location. It's not too far from the city.	Improve skate park.

Bring new development into the city.	The community events.	Stop making tax payers pay for new developments in the city like water pipes. Stop making bad choices. Make better choices on spending our money.
Bringing in stores	I like the small town feel and the location.	
Building bringing in business.	The privacy.	
Building more.	The location and it is a small town.	
Building new things like Creekside.	The location.	
Building new things, like Creekside, and trying to bring people into the city.	I like the people, the good location and the small town feel.	We need more street lights in, also they need to have more parking or give tickets to the people that are not parking right on the street.
Building new things, the city is looking forward.	Everything, the location.	
Building new things.	The location.	
Building off the river walk and making it look nice for people to come and visit.	The people. And the location is close to everything - highways and everything.	
Building up of Creekside is a great thing...the Chamber of Commerce is very active and progressive.	The neighborhoods are very close and warm. It's quiet and safe and involved, as a community of neighbors.	I'm concerned that the High Schools are getting rough -- children's behavior -- it's getting too large. Getting to be more like an inter-city school -- lack of discipline. We will either move or go to a private school.
Building up.	The location.	
Building.	The location.	

Built Creekside	The location.	They need to invest into their school to keep people in the city, I would leave soon because of the schools.
By trying to be more open to public.	The shopping and it's friendly.	
City attempt to improve life, can be proud of good property value.	Convenient location to central Ohio.	pet peeve single housing to multi family dwelling
City improvement and outstanding police.	The accessibility to everything.	I enjoy it.
City is growing fast no crime perfect now	It's small town and the traffic is not bad.	Taxes too high, outrages, might move.
City services are good. Creekside development is good.	Friends, church, close to downtown Columbus.	
City trying to grow nice for kids, good police dept.	The small town feel and things easy to get to.	
Comfortable place to live.	The parks. There are plenty of parks.	
Community strong, schools, nice, will not leave.	I know people. The sense of community.	
Compared to 45 yrs ago, there is a lot to do, more growth and development.	It has a small town feeling.	My only pet peeve is Jefferson school system. They should focus on reading, writing, and arithmetic and science, not extra curricular, more into education.
Creekside and good schools.	Clean.	
Creekside and the improvements there, along with the school systems.	My family and my friendships.	More athletic programs for children, and more or better information about either adult sports programs or children's programs.

Creekside and the schools are good.	The schools and the area. I like the location.	
Creekside and their efforts to increase their services in the parks.	The location and schools.	
Creekside development -- it's new and its nice.	The people. The people are honest and more small town.	The Christmas parade is well done and enjoyable and the 4th of July is OK. And, I like the way they are getting more use out of the Creekside park area.
Creekside development is family orientated. Residential street repairs.	Close knit community. Safety.	It's a great place to live and raise a family
Creekside development is good.	It has a small town feel and is a great place to raise kids.	Keep up the good work.
Creekside development, just one high school, and the schools system is great.	The community. Something is always going on.	
Creekside development.	The schools and it's close to everything.	Property taxes are going up fast.
Creekside good families. Schools are better.	I like the diversity. I like the green space. It's not overcrowded, people are friendly and the houses are affordable.	
Creekside good...brings activity and gives people things to do, like concerts, restaurants, etc.	The location and the convergence of all the freeways. There's easy access to shopping and downtown. I can be anywhere in 15 minutes.	
Creekside is excellent, cost of living is good, location is good. Good school system.	The schools.	None.
Creekside is great.	The shopping.	I am happy living here.

Creekside is new with walking free entertainment and the school system is good.	It's centrally located. There are plenty of restaurants.	What can we do to bring back Panera, the restaurant.
Creekside is offering more opportunities.....good change for the residents. It has really enhanced the downtown area.	I feel very safe here.	
Crime is under control and there are trees around the city.	The subdivision we bought in had large lots with trees.	Our trash is picked up inconsistently (time of day). It would be nice to limit the time the trash is out there so we don't have trash blowing through the neighborhood. Interest in economical options for kids programs (Parks & Recreation).
Crime level is down, taxes are low and schools are good.	It's quiet, with a small town feel.	It's easy to get around.
Development in Mill Street and Creekside is good.	The safety for my kids.	
Development of Creekside	The location.	We love it here.
Development of Creekside.	I like the location.	
Development, good schools.	The quality of life.	
Do something about roads.	Crime free.	
Doing a lot of good on environmental issues....buying a building to use as a school.	The location is close to my doctors.	
Doing a lot of good things on the improvement around the city.	The people.	

Done well Creekside have something going on.	I like the people in the city, the way the government is running the city.	
Don't need to.	cost of living.	
Driving around in Ohio....I see that Gahanna is a great place....a lot of building up infrastructure -- new businesses and new restaurants.	The up and coming, the progressiveness. There's new housing and new development.	
During the power outage they were able to provide traffic lighting. The WI FI for the city.	Convenient location to the interstate, downtown, shopping.	no
Economically, good moves with residential area and business.	Convenient and the crime rate low.	water bills are higher than Columbus taxes are too high as compared to Columbus....zoning residential and not be able rent there house out because it lowers every one less property value....the city should take action on this now.
Especially with the development of Creekside, it's like a little town all to itself, and we love the way they have the new buildings.	It's a safe place to live, you don't feel afraid of your surroundings, and we have good schools. Pretty much, I just love living here and have lived here my whole life.	
Everything is positive, there is development happening, improvements in the appearance of the city, the council is agreeing and going in the same direction.	Anything you want is here...stores, great schools, active churches and social groups and good neighborhoods.	

---

Everything seems to be going smoothly and neatly.

It's spaced out. There is lots of space in the city and it has everything you need here.

---

Everything they have done is pretty good.

Their schools are superior. Kids learn a lot. Kids are given credits for college. Kids come here from other districts.

---

Everything's building up. Down on Mill Street, where they are building new condos and restaurants and shops, it is wonderful. It's quaint, lovely and beautiful.

It's clean. If there are any problems, the police are right there. It's a safe, clean, nice place to live. People go out of their way for you.

I know how you can make some money. I go to yard sales every week. If you're having a yard sale in Gahanna and put your sign up, and do not remove your sign within two days, FINE them. It looks very tacky and should be put into the local paper.

---

Expanding community activities, Creekside a good idea but because of economy concern of business be able to survive is a concern.

The location and parks.

---

Feel like there getting more entertainment things and more recreational things.

It has a small town atmosphere.

I think that the parks can improve more, that the city should compare our parks to their parks in different cities. Also, I think that the city is really behind in developing the bike and walking trails in the city, I think that the high schools in the city are too over crowded.

Finally making things young people can go trying do things for kids.	I'm ready to leave soon.	
For example, Creekside. I think that development is marvelous and my daughter works in one of the stores. We still have a lot of small town values even though we're right on the verge of the inner city, but we don't have all the crime and problems seen on the other side of the belt.	The small town atmosphere. There's a lot of commercial opportunities close by, my dentist and personal physician are in town. There's a nice diversity of restaurants. I've raised 4 children and 2 are in college and 1 is ready to go back so I have to credit the school systems and the athletic programs for that. My wife and I are employed by OSU and get a discount on tuition so that has been great.	
For housing, police, fire, schools and churches, it's good.	I like that it's quiet and clean where I live.	I like where I live.
For one thing, the progress it's making with the Creekside development and the schools are great.	I like the fact that it's a "city" but its in the "country" -- it also has a great location.	
Forward thinking.	The city is very responsive to work with.	
Gahanna seems to take its infrastructure responsibilities seriously. We have an active Mayor and City Council and we have a good school system.	It's clean, it's orderly. The amenities are good. And it's safe, with a low crime rate. Good police and fire.	I think Gahanna continues to do a good job.
Getting Creekside shopping not leave our town.	I like that it's not a big city, but small town-like and I like the school system.	
Good job as far as park road planning. Development is fairly well	The location.	Money used in development should be more private and less government.

Good planning from the beginning consistence growth with services keeping it up.	It's pretty diverse in income and not uppity.	
Good quality schools and the street crews are good.	The location is great -- it's close to everything.	
Good response from city council, repair side walks.	The community, the good sports and the neighbors are good.	I think it's a great place to live in.
Good schools.	It has a small town feel.	
Good schools.	The location.	Really nice place to raise kids.
Good schools. It seems the citizens are involved in the schools. Good street maintenance, and a pro-active government dealing with issues.	The location.	It looks like the leader ship is moving forward. City council needs to work together better. Less bickering and nit-picking.
Good schools. Tax is good.	Big reason. Moved here for school system.	not really great place to be
Good things with the town.	It has a small town feel.	Watch money.
Growing our tax base because of more businesses and creating more jobs.	Everything is close by.	Do it right or don't do it at all - Lincolnshire Street.
Growing trying to keep things up to date dealing with traffic issues.	The people.	
Growth, school system is great.	It's the right size, smaller and friendly.	
Hamilton Road was widened and they keep street signs maintained.	The convenience. It's near shopping and the freeway.	Speed limits are too tight in certain areas -- the main state route can't be 25 mph!
Happy to live here	It's a nice place to raise kids.	stop pet projects stop erecting sub tower

<p>I am hopeful for Creekside but a little nervous about the commercial success. I think it's great, but having seen what happened to City Center in Columbus, I'm a bit worried. We have a fairly substantial investment and I'm hopeful it works.</p>	<p>Getting out of Columbus. Small town atmosphere here is great. We wanted to go a little more upscale.</p>	<p>When will they replace our street signs? They are doing it all over town but we would also like them.</p>
<p>I am really impressed with Creekside. I see police around all the time and the city services are very good.</p>	<p>We have good shopping and restaurants. People keep their homes up here, especially in my neighborhood (though some are not, and I find that a little disconcerting).</p>	<p>The water pressure is too low and our electricity goes off a lot. We live in the Founders Ridge development.</p>
<p>I believe it's a good place to live, though they may have made a mistake on that Creekside. Overall, we're in a good direction.</p>	<p>It's close to Columbus and has a good road system.</p>	<p>To attract people to Creekside, they need to add some kind of recreation to the development.</p>
<p>I believe the city takes things in the right direction.</p>	<p>The people are good and friendly.</p>	<p>I love living here.</p>
<p>I came from a small town in CA and it's now a million people. Gahanna, is doing it the right way. Gahanna is doing it slow.</p>	<p>It has a small town atmosphere.</p>	<p>Traffic tends to be faster than it should be. Speed bumps are nice but costly. Maybe the city should look for a solution to this. In the neighborhoods, people are travelling 35 Vs 25 and it's dangerous to our children. They might want to put in surveillance cameras, give out tickets for it.</p>
<p>I can't answer that.</p>	<p>It's close to everything. Church and everything.</p>	

I certainly like the Creekside development. It gives me some place to walk.	I guess it's the convenience of everything -- its all so close to all that I do.	
I don't get far don't drive do the best I can do.	I like the looks of area. If I needed help, the offices downtown would help.	Nothing to complain, took care of the road.
I don't know.	Close to Columbus.	
I don't like Creekside, but the school system is great.	The school system. I wish we had a second high school, but that is just my preference.	
I don't see any big problems.	It's a small, clean town.	
I don't see any deterioration. City services are good.	It's small and easy to get around in.	
I don't see anything bad going on. I would like taxes to be lowered.	The schools are good, neighborhoods are nice.	The water bills are too high and I would like to see the bills monthly.
I especially think it's in the right direction, with Creekside and all. It's like a bigger Mayberry (I'm from N. Carolina)	It's a nice small town, not too small but not too big.	
I feel Gahanna is the most racially diversified suburban municipalities in the county, the small town character as it continues to grow with pride in its city.	It's a safe community to live in. I love it's proximity to just about everywhere - the airport, downtown, everything.	
I feel that we have a lot of programs in the city. I have a young child and there are a lot of things for kids. Creekside is an awesome area.	I would say that it's a large suburb but has a small town feel.	I think I relayed a lot. But I am really proud of the city and all my friends live on the west side, but I would not move that way and will stay here.

I feel very secure. They have a very good police force, they keep the town clean and not a lot of crime, that I am aware of.	The taxes are fair and everything is convenient.	I think it is a great place to live.
I guess we're not booming like Polaris....Creekside development has been controlled.	It feels like a small town in a big city, walking distance to golf course and only 15 minutes to Columbus.	I would like to see the Recreation Dept develop a program for Special Need kid.....patterned after the Worthington program (they've had for eons).
I guess you'd say they're dressing it up in terms of keeping it cleaner and enhancing the buildings.	I think the schools are very efficient, I would classify them pretty high.	
I had a lot of good results with the former mayor -- he stepped in and helped out, so I like the government.	Its a country town and has a lot of history.	
I have lived here 30 years. I love it here	It has a small town feel, and everything is spread out.	
I have no complaints.	It has a small town feel.	
I have seen improvements with clean up and bringing in new jobs and businesses.	It's clean and peaceful here.	
I just see all the changes going on downtown, like Creekside. It all looks great.	The neighborhoods and the community. I feel very welcome here. It's also very convenient to all kinds of activities.	
I just think Gahanna is a quaint town. But there is plenty of activity in the near vicinity	The location of the city, and it's near Easton Mall.	

I just think it's a growing community and they are making improvements in the park services, city services, etc.	The location. It's close to everything in the area - downtown, interstate, shopping, but still not real built-up.	
I know doing a lot of business is for the better	I think it's clean, positive, satisfied.	Parking is not good, people complain, people drive too fast over 25 mile speed limit at high street east of Wendy's.
I like a lot of the improvements they've done over the past two years, with Creekside and some of the new buildings.	The small community atmosphere.	
I like biking. Creekside is building a stronger community.	It's quiet, there are low taxes and good schools.	
I like Creekside and the improvements that they have made.	Location in relationship to the city of Columbus.	
I like Creekside.	The location and cost of living.	I think that Dublin is the best city in Ohio. I would like some kind of larger scale of shops to come in to bring in more revenue.
I like how they are making things nicer, like Creekside as an example --more restaurants, nice parks.	I think the safety of the town is the best thing about it.	

I like how they are trying to make a gathering place with Creekside. Place where people hang out and do things.	It's the small town feeling.	The bike trails are awesome....but I'm disappointed that there isn't a second high school. When I went to school, we didn't need police in the school. I think a second high school is necessary.
I like how they help people in need.	I like that downtown is close to everything.	Great place to live.
I like living here.	I feel safe.	None.
I like some of the new development.	It feels like a small town and the proximity large.	Huge priority is the civic center with an indoor water park and the only 2 roads to go from west to east is too congested with traffic and needs some relief so you do not wait so very long for the light to change. Thirdly, the parks and the schools need recycling bins in order to keep up with the green of the city and the environment.
I like the cleaning up the city, making it more friendly, I would like to see more activities. Done real good improvements at Creekside.	It's a quiet community.	
I like the community spirit, we're still a small town, we haven't overgrown like Columbus, you still know your neighbors.	It's still a small town community, people are friendly and you know your neighbors.	Please do something with our water bill. I wasn't happy that the mayor added our city to Columbus' water and storm sewer problems.
I like the Creekside development -- it's the way to go.	I like the safe feeling - the police keep out the riff raff.	

<p>I like the Creekside development area....gives people another option for places to go other than Columbus.</p>	<p>I like the convenience, ability to get to different areas easily, 15 minutes to Columbus, 15 minutes to Polaris, real close to the interstate</p>	
<p>I like the Creekside development; the restaurants and shops are a good sign moving forward. It's also convenient to downtown and different parts of the city. The entertainment is great -- jazz festivals and fireworks.</p>	<p>I love the police force. I love the parks systems, and I love the community of people and shops.</p>	
<p>I like the development, and I like that is a safe community.</p>	<p>Location in the city, the expressways.</p>	<p>I love living here.</p>
<p>I like the developments and parks that are taking place. Schools are excellent. My one concern is that they have started to replace curbs at the entrance to the street. Why don't they replace the rest of the street? No more bars.</p>	<p>The proximity to everything. It's a good quality place to live.</p>	<p>We would really like to see the curb projects finished. Especially on Goose Lane.</p>
<p>I like the diversity of the community. The school system is excellent. Projects like Creekside add to the community. The new high school purchased with the old Kroger building. Stoneridge at the other end.</p>	<p>Location - the proximity to Columbus.</p>	<p>I really enjoy living and working in Gahanna.</p>

<p>I like the fact that its growing...constantly keeping the parks available, connected and accessible.</p>	<p>I think the community keeping its "friendly" atmosphere. The community newspaper, parks, schools, all warm.</p>	
<p>I like the fact that it's just a more up and coming community and its not a bedroom of community.</p>	<p>I think it is a good community and I like it because I feel at home here.</p>	<p>I have a concern about location. We are not by Creekside and we are by the high school. With everything moving north in the city, we don't want our location between the high school and St. Matthews church forgotten by Gahanna.</p>
<p>I like the fact that we have a good police department.</p>	<p>The parks are wonderful.</p>	<p>Schools are absolutely wonderful. We voted in money to tear down B building, then all of a sudden they renovated it and connected it to the school. What ever happened to the money we voted for to tear the building down?</p>
<p>I like the holiday parade of lights every year.</p>	<p>The small towness of it.....Columbus is too big.</p>	
<p>I like the improvements that were done at Creekside and I think that the city is trying to keep things up to date.</p>	<p>I like that the downtown area is easily accessible.</p>	
<p>I like the location.</p>	<p>I like location. You can get anywhere.</p>	
<p>I like the music in the park on the weekends at Creekside.</p>	<p>The town is improving. It's close to everything.</p>	

<p>I like the new Creekside development and the emphasis on entertainment. I would like to see more venue for adult entertainment, like a jazz club, theater and dancing for older adults.</p>	<p>It's the most diverse, ethnically.</p>	<p>The Water Department came out and he said he needed a part, and never returned. That was about a month ago.</p>
<p>I like the new development by the water. Creekside. I like the diversity of Gahanna. I like the conveniences and location to downtown and the airport and 270.</p>	<p>It's clean and I'm close to grocery stores and shopping. It's quiet here.</p>	
<p>I like the new downtown. It will bring more people into the city.</p>	<p>I like the police department, it's very visible and a very safe feeling.</p>	
<p>I like the police department. We see a lot of police in the vicinity. They're very helpful.</p>	<p>Small town atmosphere.</p>	
<p>I like the results that I see and the way the government is run. They are making this a wonderful community.</p>	<p>I like its location. You are in the middle of everything without a lot of traffic. I like all the churches and the new development, Creekside.</p>	<p>I do have a problem that some of our schools are in crisis. By this I mean meeting the state's standards. That would be my one negative comment about Gahanna.</p>
<p>I like the safety of Gahanna. I like the parks and recreation and we have one of the best police departments there is. This is one of the best towns in Ohio.</p>	<p>The convenience. It's close to downtown Columbus and the airport and freeways.</p>	<p>I would really like to see a Convention Center here to bring in business and income for the city.</p>

I like the services with seniors, the police department and the art is great in the city.	I like our neighbors.	
I like the way that it has a small town feel.	I like the parks and the Creekside area.	
I like the way the things are going on. I'm anxious to see Creekside development	It's home to me. I like the schools and the neighborhoods and the safety.	It's home to me and I'm not leaving.
I like the way their doing Creekside, the city government done the best they can.	It's out on the edge by the countryside.	
I like the way they have family activities and the Creekside development.	It's clean and well maintained, and the police are great.	
I like the way things are going.	I like the parks.	I think the Mayor is doing good job, the police are doing good, but the Creekside council member - not so good.
I like what they are doing at Creekside, with the new developments and improving the road conditions.	My parents. But about the city, I like the smallness of the city and the layout of the neighborhoods and the overall feeling of safeness.	
I like what they are doing with the schools. They aren't expanding and building too much. I like the smaller type of school.	Convenience. It's close to everything. Stores, movies, grocery stores, the airport - EVERYTHING.	
I like what they did to Creekside. It has added beauty to our city. And the festivities in Gahanna.	It's home, my friends are here.	I would like to have a discussion on upgrading Schull Avenue.

I like what they did with Creekside and the police service is good.	The location, close to the airport and downtown.	I would like to see the city to support more towards youth sports and programs.
I like what they did with Creekside.	I like parks and trails, Creekside.	they need to improvement the schools
I like what they have been doing.	Condo living, beauty.	
I like what they have done downtown with Creekside. They are making things look better.	Balance of residential and commercial areas.	trash people sometime miss the cycle
I like what they're doing downtown, it's excellent - Creekside.	It has community schools that are good for special needs children.	
I like what they're doing to get the community together and do things. I like the different programs they offer for seniors, etc.	From living in other cities, Gahanna is like "Leave it to Beaver".	The water bills are extremely high and I don't think they read the meters accurately. I am extremely pleased with Camp Friendship, which my granddaughter goes to. The price is extremely reasonable, the activities are great.
I live in a condo and things are well taken care of by our association. I like the city shopping and services and restaurants are great. There's everything here.	To me, it's the convenience of grocery stores and drugstores, because I'm older and those things are very important to me. The police and fire departments are good, also.	
I love the way Gahanna has been beautified. It's not just a city, they have really made the landscape wonderful. It's been developed in a great way.	The cleanliness, the safety and the nice people here.	I love it.

I mean great job on Creekside, good police.	The schools, the good church people, the parks for kids, the senior center.	Can they maintain noise from airport, Port Columbus.
I mean, we're building and adding. My only problem is the schools. They used to be good....now they suck.	The convenience of the stores. My sister lived here first. The stores are located in convenient places. The neighborhood is "old time" in a good way, everyone knows each other.	
I moved here five years ago because of the school system and the local government.	I love the community environment.	
I pray for the fact that all of the businesses downtown do well. I love Creekside, it's beautiful and I hope that it succeeds, as well.	I like where we live, it's a nice community with great neighbors. I like our new Kroger store and everybody's friendly.	I want a monthly water bill so I can manage my finances. I want to pay it monthly vs. quarterly. I am raising my grandchildren and my bill ends up being \$350 or \$400.
I read in a Black enterprise magazine that there were 8% Blacks in Gahanna -- that's far more than when I got here.	I like the way its laid out, very convenient to anything I want, shopping, restaurants, etc.	
I read that they are enhancing the bike path, the recreational activities are good for the general public. They seem to be making improvements in the roads and the water system.	That it's small. That it is self contained, more or less. When my kids left home in the evening, and now I have grandkids, they don't usually venture outside of Gahanna.	If you build a new community center, please make sure it's centrally located so all residents can get to it easily. I live on the West side and sometimes it feels like we get ignored over here.

<p>I really like Creekside, everything about it. I especially like the events they have like Teen Fest and Creekside Festival, lots of activities.</p>	<p>I like the schools and I like Creekside for the activities.</p>	<p>The sidewalk across from my house, between Thistle and the road before McCutcheon is not existing. There's just a ditch there....it would be nice if the city put in sidewalk there because there are a lot of kids in the neighborhood and it doesn't look good....especially since there are sidewalks everywhere else. Its only a block long. It looks the city either never fixed it...or just forgot about it.</p>
<p>I really like the city services, they are on the ball.</p>	<p>I think it's handy to everything, it's a good location.</p>	
<p>I really like what they have done at Creekside and the trails and the paths. It's very family orientated. It enhances the city by bringing in businesses.</p>	<p>Clean, and the size not to rural, and family friendly and green spaces.</p>	<p>we are very happy to live here... coming from out of state</p>
<p>I see a lot of positive things that Gahanna is trying to do. The schools are being upgraded, for example.</p>	<p>It's beautiful here, and peaceful and small.</p>	<p>No, just keep up the good work.</p>
<p>I see it increasing in more facilities. Creekside looks nice.</p>	<p>It's so close to my work. I don't like the name.</p>	<p>The waste pick-up people emptying the trash, end up throwing the trash receptacles all over the place -- sometimes you have to go look for your cover....sometimes they let them roll in the middle of the streets.</p>

---

I see new buildings happening, like Creekside. I see growth and good care being taken of the roads and things like that. The town has been taken care of and the people I know in the city have been very happy with it.

Everything is accessible. Grocery stores, parks, whatever I need is nearby.

My only complaint regarding snow removal is that they piled snow halfway up my car and it took a week to dig my way out of it. I am 73 years and it would be great if they would not do this. Regarding trash pickup, they do their job well except they throw the recycling bins and I've had to replace them several times. My suggestion is that the bike and walking trails should center on a new community center and go outward to different parts of the city for easy access by teenagers.

---

I see that roads are improving, road signs are improving, repaving, trash was picked up, good response to natural disasters, crime report update bi-weekly.

Distance from job to home is short, like subdivision, well maintained homes, city is friendly, accommodating to all races.

---

I see the city growing, offering new places like the Mill Street development. And it was in 2007 that we got one of the best cities to live in. And location wise, we have great access to the freeways and have a great school system.

The size of the town, it's not too large and not too small. The variety of restaurants and access to lots of things.

I see the community getting better instead of getting worse.	Downtown	
I think building in positive way.	The location to the airport.	Nice place to live.
I think city services are very good. Snow removal is adequate. Crimes seem very low and it is a very nice place to live.	The feeling of safety.	
I think Creekside is a good indication of where they are going.	The location and the proximity to freeways.	
I think Creekside is really great and I'm impressed with the school system.	The convenience of the location and the police department.	Traffic light timing on Hamilton Rd generally is not coordinated well.
I think Creekside was a good thing to do. Access to more things like venues, highways, festivals and more community things.	I'm close to shopping centers. I have easy access to the airport.	They need another high school. It would help with athletics.
I think in terms of organizations working together, it is a good direction. The schools are doing a good job, good organizations within the community that are doing good things and serving the community.	Number one is the proximity to a larger community, but also the ability to do things on your own terms. There are a number of good things to do in Gahanna, like parks and shopping opportunities.	I would be willing to pay more in taxes if I would see better fiscal management and my illustration of that would be the recent outlay of funds for the new YMCA (\$1million) and now we're talking about a new community center.
I think it is great place to live. It's safe and schools are good.	Convenient to everything.	I enjoy living here.
I think it is the growth. Development of industrial park.	Good school system.	I think is has been a well governed city.

I think its developing nicely and we have lot of unique things here like, Creekside.	I think its size - the smallness of it.	
I think law enforcement does an excellent job keeping people informed with open meetings.	I think the convenience of the stores being in close proximity and it all seems to be near at hand.	There is a need for a stop light on Savron Rd because there is no coordination with the lights that are there. The timing of the lights are not in sync and there is always a backup. Also the people making a left turn into Fifth Third Bank -- traffic backs up into and across Hamilton Rd.
I think new ideas are innovated before implemented not have a lot.	I like the friendly people. I love the parks and businesses.	The people lived there many years, not recognize if build too fast, not like a lot touring.
I think our mayor is in tune to what the city needs, from senior citizens to young children. It is an excellent place to live. They have wonderful events year round.	Location to Columbus.	
I think our people in office are doing a good job, they are trustworthy. I've enjoyed the concerts in the park very much.	I don't get around much at 80 years old, but I do love the city.	
I think overall the evidence as being one of the best place to live in the country.	Its convenient, with access to downtown, 270 and Columbus.	
I think rent is too high.	A lot of activities, things to go to, like the nice town.	

---

I think that Creekside is a big plus and will draw people to Gahanna and is a big improvement. Our schools are on the right track (my grandchildren go here). Crime is low and I feel safe. And, as far as refuse collection and snow removal, they do an all around good job.

Before Creekside, I had always wished we had a town center. I never felt there was a downtown, but I think that Creekside will make that different. It's a small town feeling that I like.

---

I think that it is a nice place to live.

Where it's located and the schools.

---

I think that the area is building up like Creekside.

It's nice because it is small.

---

I think that the government of Gahanna is very responsive. The city will listen to you and may make changes. They're improving, like Creekside.

The location is close to work.

Don't raise taxes, taxes are too high, don't like the city income tax, like the people at the city hall. Speed up on the McCorckle park project, they need to speed up on the relocation, yard waste removal sucks, they don't pick it up on time.

---

I think that there's a positive lifestyle here and it's a safe place to live. There's a lot of services and stores, movie theatres, etc., and you don't have to drive somewhere else to do what you want.

Again, I like that our neighborhood is very nice, very safe and it's a nice thing not to have to worry about things. It's in close proximity to Columbus and if Gahanna doesn't have something, we can go to the city for entertainment or shopping or looking for vehicles.

<p>I think that there's not a whole lot of crime, or disturbances in my neighborhood. It's pretty peaceful and not a lot of crime.</p>	<p>Location mainly. Lots of access to major highways, and it's easy to get to Easton and Columbus.</p>	
<p>I think that they are trying to keep family oriented events going, downtown Gahanna and Creekside is a bonus.</p>	<p>Location is helpful. It's easy to get to shopping, restaurants and the airport.</p>	<p>Our electricity goes out at the drop of a hat but the neighbors across the street are fine. And, the police are little arrogant. Luckily we don't have big police situations, but people who have had contact, feel that they lord over people and I don't like that.</p>
<p>I think that they might have chewed off more than they were thinking when they built Creekside.</p>	<p>I like the location and its proximity is near to many things.</p>	
<p>I think the city does a good job balancing residential and business. Keeping up with the infrastructure of the city</p>	<p>The location and proximity to the highway is very good.</p>	
<p>I think the City has kept itself up nicely and the parks are beautiful. The safety protection is good, the police and fire departments are excellent.</p>	<p>The shopping is very convenient and for the most part traffic is fine. I appreciate the fact that the schools are good even though I don't have children.</p>	
<p>I think the city is trying to do its best to satisfy the people who live in Gahanna.</p>	<p>It's very convenient because there are a number of stores. If you don't want to leave Gahanna, you don't have to.</p>	<p>No, I'm just glad you're calling and asking people.</p>

<p>I think the City leaders have done a fantastic job with Creekside, the overall growth in the city has been wonderful. We have all the amenities since we've lived here, it has grown to include restaurants, movie theatres, shops and it hasn't been a hit and miss kind of thing. Residential areas remain separate from the business end, and that's great.</p>	<p>It's cozy. It's not too big like a large city, and it has it's own little character. It's a nice small town.</p>	<p>I would like the police to monitor traffic speeds as much as possible. Drivers are speeding or driving erratically and we wish that could be resolved.</p>
<p>I think the city parks and recreation department is good and the school system.</p>	<p>It has a small town feeling and its close to most everything.</p>	
<p>I think the Creekside development in beautiful and going to be a money- maker. However, for some reason some of them are already leaving. Is this really a "million-dollar" community.</p>	<p>I like the convenience of it You can get almost anywhere. It's a bedroom community.</p>	
<p>I think the Creekside development is a good thing. Good upgrade to the city.</p>	<p>The location and its convenience to the airport, downtown and the Easton Mall.</p>	
<p>I think the Creekside development is excellent. Buying the Kroger store is a good move. Maintain the street infrastructure</p>	<p>The location is close to airports and shopping.</p>	<p>Great place to live.</p>
<p>I think the Creekside development is good, and also the bike trails.</p>	<p>The convenience. Everything is right here, I don't have to go anywhere else for entertainment or parks.</p>	<p>I think its a great city and I'm staying.</p>

<p>I think the Creekside development is the right thing to do.....bring the city up to the present day.</p>	<p>The location. It's easy and convenient to get to the airport, downtown, and the Easton Mall.</p>	
<p>I think the Creekside development, and the fact there is always improvements being made (i.e., street ramps)...the community takes care of itself.</p>	<p>I guess it's nestled in with a lot of shopping, Easton, Columbus, a lot of shops conveniently located. And it's a very nice residential community with good access to freeways.</p>	
<p>I think the development at Creekside is going to bring people into the city. Investing in the community is always a good thing.</p>	<p>I think the location - close to everything else in the city - is nice. Also, the closeness to Easton.</p>	
<p>I think the development here is top notch. By that I mean Creekside.</p>	<p>Location is the best. Convenience to the expressways and the airport.</p>	<p>Traffic on Old Ridenour Rd. is constantly speeding on a 15 mph road. People use this "bike path" as a cut through. The water dept rates are ridiculous. How much lower can the Post Office get with their service? They lessened their hours, their scale is broken and they took the stamp machine out.</p>
<p>I think the downtown on the waterfront is very good, and that, in general, the economy is good here....jobs.</p>	<p>I like the parks, the riding trails.</p>	<p>I think if they would build more bike and walking trails, it would connect to Creekside and you would have more people becoming healthier. Now, it's hard to move around town on your bike.</p>

<p>I think the happenings in the community are on the positive side and things are getting better in general. I think the improvements around Creekside are excellent and the most recent action on the part of the City to get the Jet Set to improve its facilities (for the airport).</p>	<p>Good schools, well governed and we have an excellent police force and city administration. I'm very pleased with the city in general.</p>	<p>No, I'm very happy to be in Gahanna and all 8 of my children have gone to school here and am happy with the city in general.</p>
<p>I think the improvements, especially Creekside. The single high school is better for the city. Rallying around the one school.</p>	<p>Community feeling.</p>	
<p>I think the leaders are headed in the right direction.</p>	<p>The schools, the convenience, and we like the people.</p>	<p>No, it's a good place to live.</p>
<p>I think the new Creekside is moving in a good, positive direction.</p>	<p>I think location and size.</p>	
<p>I think the police and fire department are good.</p>	<p>I like the stores, churches and restaurants.</p>	<p>The post office parking is bad.</p>
<p>I think the police have a good hold on crime. They have good schools.</p>	<p>The school system.</p>	<p>I just think the taxes and water bills are too high.</p>
<p>I think the redevelopment of Creekside has enhanced the community. We have a good park and school system.</p>	<p>I like its proximity to Columbus, interstates, shopping centers.</p>	

<p>I think the school system is being managed very well and is a draw for Gahanna. The housing is a draw also and I would compliment the Police Dept.</p>	<p>The old town flavor. I work at the old Gahanna hardware store and it reminds me of the old village.</p>	
<p>I think the schools are decent and I think anything you need you can get here. Its all close.</p>	<p>The location. The proximity to everything I need.</p>	<p>I can live anywhere I want to in the US and I choose to live here.</p>
<p>I think the schools are doing a fine job. I see a lot of activity in Creekside and we appear to be in a positive mode.</p>	<p>I like the schools.</p>	
<p>I think the schools are doing well, businesses are growing and services seem to be good, and we have lots of parks. It's easy to get around, convenient for shopping and a good place to do a lot of things.</p>	<p>The location. It's close to downtown where I work, and it's close to shopping and entertainment..</p>	<p>I'm unhappy with the billing for the water because they take it out of my account, it goes to the city's bank, and then they send it to the water dept who credits it to your account. They tried to pay me a late fee (it comes out of my bank account.</p>
<p>I think the schools are great.</p>	<p>The schools and activities for the kids.</p>	
<p>I think the schools are improving, the Creekside development is good, the police department is helpful. They have great neighborhoods, the city services are very good, and city government listens to our needs.</p>	<p>The schools and the friendly community.</p>	<p>Very happy in Gahanna, city government does a great job.</p>

---

I think the schools are very good. I think the housing market is good, and we have all classes of people. The new restaurants make it a place that people want to come to. The new Creekside is very nice, it is a nice place to walk the dog.

I like the accessibility to everything. And, not too much traffic yet.

On Monday or Tuesday, when we go to work at 7:15 a.m. the Rumpke truck slows down traffic for a lot of commuters. Why can't they do the side streets first and then get Hamilton Road later? On Havens Road, before you get to Lincoln Elementary, it is very dark and there is no light. We are concerned that our children will be hit, and it seems like a real dangerous area. It needs a street light please!

---

I think the Services are good, actively pursuing businesses for a tax base. Good schools, building infrastructure.

The mix of people and proximity to Columbus.

---

I think the tax is solid and Creekside is unique.

I like the school system and the downtown.

---

I think their parks program is somewhere between excellent and outstanding.

The fact that it's a bedroom community to a rather stable economic city.

---

I think their planning of the developments has been excellent, like Mill St. Their zoning dept. does a great job in balancing businesses, the upkeep of the streets and maintenance is very good.

It's quiet. The neighborhoods are clean, the streets are kept clean and I'm happy with the shopping. Getting around is easy. The location is great.

---

I think there are good things about the downtown districts, and the parks are good.	The location. It's convenient to everything.	
I think there are plenty of things to do and plenty going on in Gahanna. It's conveniently located, there are places to shop and something for kids to do.	The school district.	Gahanna is a great place to live.
I think there has been progress, obviously the Creekside adventure. As a whole, I think Gahanna has been great	We live on the outer edges of Gahanna and we find that it gives you a country feel, and yet the town is very close. We have the best of both worlds.	I'm not moving anyplace. They've got one satisfied customer on Ballard Drive.
I think there's a lot more community activities, especially with Creekside and there seems to be more police officers on patrol to keep the crime down.	Probably the people, who are friendly and it seems to be a close knit community.	I think that compared to all other cities around here, Gahanna has the highest water pricing. If you could pay monthly, that would be great but you have to pay it every month.
I think there's things like Creekside gives us a place to go and communicate with others. It seems to be a family friendly place.	It's got a good sense of community.	
I think they are building up downtown and the schools are doing ok.	The location. It's not Columbus, but it's close.	
I think they are commercial development is going well and like things at Creekside	My neighborhood is a very friendly place to live.	
I think they are doing a lot to upgrade community.	Community oriented, central location.	

I think they are doing a lot with the roads and getting them fixed. the bike paths and Creekside development. Easy access to everything.	The location and how close it is to the city of Columbus.
I think they are doing ok.	It's close to work and it's friendly.
I think they are keeping up the city, working on the roads....just about everything they are doing right.	City services ...all of them.
I think they are trying to improve the city by adding things like Creekside ...revitalize the downtown.	It still has a small town feeling, but you're close to everything else like airport, downtown, shopping.
I think they are trying to improve traffic patterns and road conditions and there a new businesses	It still has a small town feel, I think it was a great idea. even though the city is expending.
I think they have a genuine interest in making a concerted effort in pleasing and doing the right thing for the residents. Making it a place people would want to live.	I love the location -- the convenience to everything.
I think they have a great parks and recreation department. Natural disasters and infrastructure are good.	We are so accessible to the freeways.
I think upgrading schools was a good job.	I like being near downtown. I'm close to work and the people are friendly.

I think we are doing everything in the right direction. We are family oriented. Security is tight.	It's convenient to everything. Freeways, shopping, medical and some entertainment.	It's an excellent life in Gahanna.
I think we have a good school system.	There are nice neighborhoods. They are clean and well kept up.	
I think we have an excellent park system, police dept. The police patrol the elderly areas. Police dept is very good.	It's a pretty safe place and a good family town.	I think it is a good family. There are some problems, but then all areas do. I would rate it very good.
I think we're doing some more things like the park downtown, Creekside. When I moved here 20 years ago there were just pizza shops and dry cleaners. I like the direction.	I like the sense of community it has. People are friendly and there is a sense of a group and that's really nice to have.	One of the reasons to live here is the school system.
I think we're planning for the future, we're looking ahead. We're working on important elements like infrastructure and education. And, we seem to be limiting or controlling commercial and residential growth to some degree, and that's good.	It hasn't had the growth such as Dublin...it's not overwhelming....some growth but not too much and lots of conveniences.	Since we've stayed here for 32 years, we've enjoyed it and have just retired and have no plans to leave.

<p>I think with everything...Creekside, other new developments, lots of activities for adults and children and good parks.</p>	<p>I think its family oriented , the holiday activities are very family oriented, especially, the parks. They are well maintained.</p>	<p>The trees and power lines -- they need to cut back the trees around the power lines. When the electricity goes out, the substation by me takes out like a thousand people. We have power outages all the time, even if the smallest of storms, the power station near goes down 5 or 6 times a year.</p>
<p>I was born and raised building new venues especially Creekside. I love its small town atmosphere.</p>	<p>The way things are convenient. Everything is accessible.</p>	<p>I think it is a great place to live.</p>
<p>I went to school here, my son goes to school here. Creekside has grown up a lot and things are going on for the positive.</p>	<p>It's size, being small, makes it friendly. It's safe. It's conveniently located near the interstates.</p>	
<p>I would never say the wrong direction. I'm not unhappy and if I believe things like Creekside are positive, then yes, headed in the right direction.</p>	<p>I like the location being close to places like Easton. I think there are plenty of shops where people can buy goods or mix socially.</p>	
<p>I would say that the overall city services, the schools and the recreation projects are all very good.</p>	<p>The diversity of people and the closeness to major highways. Everything I need is here (most everything).</p>	<p>My major complaint is the electricity service that we get. We've been here 17 years and at least 2-3 times a year our electricity goes out and stays out consistently longer than average. Gahanna should fight to get this fixed. (I live on Riva Ridge, between 62 and Morris)</p>

<p>I'd say everything is fine, especially the development.</p>	<p>The new Creekside development.</p>	<p>Fix the curbs and gutters around the city -- they seem to be ignored.</p>
<p>I'll be perfectly honest, I don't see anything to the negative.</p>	<p>I like the fact that it's close to my job and everything is convenient, right here so I don't have to travel to shop, go to restaurants. I used to live in Delaware and this is more central.</p>	<p>My biggest problem ....it's probably everywhere...we have issues with pets (dogs are fine). The same neighbor feeds stray cats and it has created a real problem for us as neighbors. We are on our 7th or 8th set of kittens and they use my back yard as a letterbox. We contacted the police, agencies with the cities and my neighbor went to the city council and nothing gets done. Cats are supposed to be licensed but they don't control this.</p>
<p>I'm really pleased with the bike trails that are being developed. We are a little concerned about Creekside getting enough residents (the sign there saying "residents" makes it sound like a nursing home). There's got to be a better word. How about "owners"? Also, the price may put them out of reach of people. Overall, things are headed in the right direction.</p>	<p>It's clean, it's beautiful and the people are friendly. The schools are terrific. The high school is top notch and offers so many programs for the kids. We were glad that the school was not divided as was a potential in the past.</p>	<p>We feel that the bike trails should be put through as soon as possible. We are substantially behind this and want both walking and bike trails ASAP.</p>

<p>I'm saying this unprejudiced....I don't like paying out of pocket taxes. I like Creekside development, raised my kids here. I'm locked in here. Things are on the right track.</p>	<p>I like the park system, the activities at Creekside, i.e., the overnight camp thing, a Civil War re-enactment. They do these things well.</p>	<p>I think OLD Gahanna is underutilized -- there should be more of a tie- in between old and new -- things like restaurants, bed &amp; breakfasts. I'd like to see a "merging" of these types of operations so one feeds off the other so that if they're drawn to Creekside they can also see what's on the other side (Old Gahanna)</p>
<p>I'm seeing growth, improvements and businesses starting up. I enjoy the parades and the community events, which are getting bigger and better.</p>	<p>The size of the city, the small town feel of it.</p>	<p>No, this covered it very well.</p>
<p>I'm very happy.</p>	<p>It is close to work. It's just a short drive, and it's really close to the airport.</p>	<p>Stop charging 1 and a half income tax....tax happy city it sucks.</p>
<p>I'm very pleased with the downtown area Those improvements make it esthetically pleasant.</p>	<p>It offers many things for many people. Variety.</p>	
<p>Imitative on updating the area, attracting new businesses but there is a ways to go.</p>	<p>Diversity. Every social economic brackets. I feel very safe in the area.</p>	<p>Keep adapting to the changes that occur for diversity in the city</p>
<p>Improvement in the city for all ages, catering for all age groups.</p>	<p>It has a small town feel, in some ways.</p>	<p>As I was approaching Creekside, there was a sign stating it was a recycling city, excess trash that is an eye sore....this is an issue.</p>
<p>Improvements are being made in the city.</p>	<p>The location.</p>	

Improvements are being made.	The location and the people.	
Improvements in downtown area and parks.	Friendly, good proximity to everything.	the city pools lack attention.. they need repair..
Improvements with Creekside and bring business into the city.	shopping locations, convenience to downtown Columbus.	I enjoy the city.
Improving by building like Creekside, it's clean.	The people.	Leave Hamilton Road alone.
Infrastructure is improving. Downtown, old Gahanna, is improving. The Mayor is concerned about our town. The Police Chief is doing an excellent job.	Friendly atmosphere. Security.	Quiet neighborhoods.
It has gotten nothing but better, overall.	Property values increased.	
It has new businesses and jobs coming in all the time which makes it a booming town.	It is an up and coming town and yet it is very clean and quiet at the same time.	
It has really come a long way, economically.	The people, it is clean and safe, and they have a good school system.	
It is a booming town with lots of new business coming in.	It is an up and coming town with every thing we need and much more.	
It is a clean quiet place to live.	I like the neighbors we have.	
It is a good place to live... more status, education and financial means.	The neighborhood is safe, but cops pull you over for nothing or any little thing.	I live close to 670, more closer stores and things to do.
It is a nice quiet clean place to live and at the same time they are bringing in new jobs and businesses.	The people are friendly and everyone looks out for one another.	

It is a progressive city.	I like it because we're close to Columbus, but far enough away to enjoy the outdoors.	
It is a safe place to raise children and the people are pretty friendly.	It is a safe place to raise children, and it is a clean city to live in.	
It is a safe place, the police are responsive, very fast, and in general, the neighbors are decent people. We have all the supermarkets we need close by and everything is right here.	We like the quiet of the city. It's not too big and busy.	I would appreciate if the Engineers office could resolve the surface runoff of water at the Columbus Academy behind my home that I've already spoken to them about. Please provide more power to the City Engineers and remove from the political pressure on that office.
It is an up and coming town with a lot of new businesses.	It is a clean and up and coming town.	
It is growth.... the level of police protection....the Creekside growth and expansions and family orientated.	The small community and that they're nationally known.	
It is on a high end of living and new things keep on coming into the city.	The location and it feels like a small town.	
It is progressive and a good place to live. No broken down areas	It has a small town feel and good protection.	One concern is that they don't build too many low income units and more of the high end units, I would like more high end, fewer multiple units and more high end.

---

It just seems to be an up and coming town.

It seems to be a relatively good place to live and to raise children.

---

It keeps on growing.

The location and the people. There is a small town feeling and there are good schools.

---

It looks like the administration is headed in the right direction.

Friendly, plenty of stores and restaurants.

---

It looks like they're taking care of the schools, the roads and the businesses are doing well. It almost looks like it's turning into another Polaris type area...in a good way.

It's peaceful. They have a lot of activities for people here, like the Creekside festival, the jazz thing and the Halloween activities, for example. I lived in Columbus before, and it was hard to find those things. It's the convenience, there is everything I need around me in town. It seems to be a well rounded area.

---

It looks like they're trying to build the city up and make it more attractive to people. The schools are improving and roads are being maintained well.

It's convenient to most things you want to do, and to the freeways and airport. We live on the west side of town, and all the developments are on the other side of town and we've noticed that.

---

It seems like Gahanna has a city pride...I like some of the events they have, i.e., the holiday parade, jazz fest...community-wide activities.

First, strong schools. Second, cultural diversity.

---

---

It seems like its always been in the right direction.

It still has a small town feel and the services of a big city.

---

It seems like the city is addressing some of the things we have to deal with locally. The schools do well, improvements on Mill Street, in general we have growth and keep the city clean. Overall, we're headed in the right direction.

As a community, we seem to function pretty well. Virtually every neighborhood is a tight knit community and is pleasing to grow up in.

On the west side of Gahanna, are they going to relieve the traffic congestion (Agler and Stygler Rd and 670/Stygler Rd intersection)? It is something I think is being addressed, and I hope it is.

---

It seems like the city is trying to involve the community a lot more, in terms of activities, and they are publicizing those activities. They are taking good care of our streets and the snow removal is good, compared to other cities.

I came from a small town and I like that Gahanna is a mix of people. Until the last few years, there wasn't a lot of traffic with the new development, but it's a tradeoff. I feel safe, I walk my dog every night and am not afraid.

---

It seems like the renewal of the old down town by Creekside is pretty cool.

The two lane road on Hamilton.

Do not expand Hamilton Road.

---

<p>It seems like they are trying to make it more of a family-oriented city with improved safety and that kind of thing. Seems to be lot of protection.</p>	<p>Everything is convenient, close to Columbus, the Easton Mall, and Farmers Markets.</p>	<p>Dogs being allowed to poop all over the neighborhoods...right up next to the homes and flower beds....and the owners not bothering to pick it up. If there is an ordinance, there is no following up on it. We get power surges all the time....two of them today....and they don't seem to be weather related. The Power will cut off for a few seconds and then kick back on....long enough to force you to reprogram everything electric.</p>
<p>It seems that they have everything going very well and their services are great.</p>	<p>The comfortable living style.</p>	
<p>It seems they take of things.</p>	<p>Friendly, good schools, comfortable town.</p>	<p>no</p>
<p>It seems to be a city that is on the move. It's moving forward, not backwards. With the Creekside development and the activities and parades that they present, they are really trying to engage the community.</p>	<p>I would say the activity level - just all the things they have to do, and the parades and parks. It is a pretty vibrant community.</p>	
<p>It seems to be an up and coming place to live</p>	<p>It's clean, safe and quiet and it is convenient with every thing I need.</p>	

It seems to be an up and coming town	It seems to be up and coming, and it's a safe place to live.	
It seems to be run ok.	The convenience to all ends of town.	
It seems to be very safe, community orientated, family orientated, and they're progressing and growing. The school system is good, but needs to improve.	The schools and community aspect. It's a well kept community.	I am the only black family in my subdivision. I regularly get followed home by the Gahanna police and when they see me stop to get my mail, they might think I'm stealing mail. I hurriedly hit the garage door opener, trying to get into my garage quickly to let them know I actually live here. When they cruise through the neighborhood, they actually slow down. They slow down and watch us to make sure. They want me to let me know they are watching me. In an intimidating manner. They have made us so uncomfortable. It has made it impossible to tell my small daughter to trust the police.
It seems we have people in office that know what to do with money.	The location. It's close to major stores but is not a large city.	
It used to be a boring place to live, but they are building up so much it's actually kind of a cool place to live.	The shopping and the people are cool, and there is a lot to do here.	

It's a community that is growing but it's controlled growth, not suburban sprawl. I think the city is mindful of green spaces and the environment.	It's a safe place to live. It's affordable and family-friendly. It's accessible to other places, like downtown.	The water cost is exorbitantly high. We could live anywhere we want and we choose to live here.
It's a fairly quiet, nice suburban town.	It's convenient to a lot things in the Columbus area, but not too busy.	
It's a friendly place, they are kind to each other. Lots of parks in the area. City council is responsive to problems. Schools are well run.	The friendly neighborhoods.	
It's a friendly place. It's a good community to live in and there are sports for kids.	In the city, people are nice. It's a small town with a good mix of neighborhoods. It's a great place for kids.	It's a good place to live. Better than some.
Its a good community to live in.	I like most things.	I do not like that they moved the dog park. It's unsafe.
It's a good location with good police.	The location.	The police should stay in city, not on the interstate.
It's a liberal town. It's a little city and it's growing.	The people. The people.	It's a nice place to live. It needs to be more racially centered. We tend to have more racial problems in Gahanna.
It's a nice clean community. It's a nice community and we were picked as the best retirement city in America.	It's just a nice town to live in. The school system for my child, and the recent change in atmosphere in the police department.	Keep moving forward.
It's a nice place and the schools are great.	The school system.	Reduces water bills and need to reduce taxes.

It's a nice place to live.	I like the community activities.	
It's a nice, small city.	The people, and there is lots to do.	
It's a positive improvement.	Residential.	
It's a pretty open community. I don't see a high crime rate, we have good schools with an emphasis on development. What else could I ask?	We have a lot of friends here. It's a low traffic area in my neighborhood. It has the diversity that I like. Different neighborhoods to chose from, good shopping, access to the major arteries.	No
It's a safe place and there are lots of parks.	The people and businesses, and the central location.	
It's a safe place to live.	Friendly.	a nice place to live
It's a safe place. The police protection is good.	The layout of the city. The neighborhoods are nice and clean. Stores and services are convenient, but we could do with a few less banks.	They need to cut back away from the power lines. The city used to contract someone who was always around cutting down trees (back in mid 90's) and they don't do that any more. The trees both cause outages and make it difficult for the repair crews when an outage occurs.
It's a safe, friendly area.	Close to everything.	The expense of the recreational sports is very high and too much money.
It's a small city feel with a big city feel.	The quality of life. It's a nice place to raise children.	I love this city.
It's getting better.	The neighborhoods.	
It's growing in a positive way, like Creekside, things keep on improving.	Clean and nice.	

It's growing, it's got quite a bit of what people want, shops, restaurants and people.	The shops and restaurants, and it's very convenient.	
It's growing.	I like everything!	
It's growing.	The people.	
It's grown and still is a safe small town with more things in it.	The location. Not right here, but close to everything.	The pools cost too much for families.....the speeding on my development is terrible, Beaver Brook street.
It's grown tremendously. There are all kinds of services, and the quality of life is very good.	The shops, and it is peaceful with more friendly neighbors.	
It's involved in family.	It's small.	
It's just a good place to live.	The schools and the police.	It's a good place to live.
It's just a nice little, homey town. It's not too big and I'm real satisfied here.	Small town feeling but you have access to the VFW, the clubs, boating and shopping.	
It's kind of a boring but safe town to live, but with all the new businesses they are bring in, things are on their way up.	It is safe and it is convenient for me.	
It's little things. Creekside has added a lot and I like the new street signs, which have added a lot. They reflect that somebody cares about the city. I also like the plantings around the City.	I like the mix of people. We are retired Air Force and we've lived all over the world.	I really like the big complex in Westerville with the soccer fields and it's really easy to get to. Maybe Gahanna needs something like this, but I'm not sure where we'd build that.

It's not so much what we have, but what we don't have. I can go to the store without getting mugged, the traffic is fine. Life is good.	It's a good place to live, has a good location, and is close to everything.	I've been here all my life and I can't think of anyplace I'd rather live. I have done a lot of traveling and it's great to come home.
It's on an uphill climb, not a decline.	It's quiet, the police coverage is good, shopping is good, although traffic is too heavy. They had a chance to put in a new bridge to reduce this problem, and it makes me angry.	The Jazz and Blues festival is just excellent. I look forward to that every summer. In fact, I went on the city website and couldn't find information about it.
It's pretty safe and police protection is very good..	The location. It's convenient to about everything.	
It's progressive. They are spending a lot of time and money on community events, promoting outside events, buying property and upgrading the streets, and that's good.	It still has its laid back, small town feel, but is close to the conveniences of the city.	
It's real good for the community.	The police department, because I walk a lot and it is safe.	
It's safe with beautiful parks.	Close to everything, giant ego store, schools good, just convenient.	
It's safe.	Good parks.	If you are looking for a nice, peaceful place to live, this is it. And the schools are great.
It's the best place to live in, in the top 100, according to Money Magazine.	The people are friendly, there are multiple cultures and everything is close.	If you are looking for a nice, peaceful place to live, this is it. And the schools are great.

It's the downtown. It has been revitalized. It makes for a good ambiance to check out the new areas.	Very accessible to downtown and the suburbs. It has most of the convenience at hand. I can get to the stores, gas station and eating places.	
It's the most diverse community and has good schools.	It's close to everything in Franklin county.	
I've been very pleased with everything. They are responsive with services and resident's needs.	Convenience more than anything. To shopping, to the airport. The people are friendlier in Gahanna.	Water bills are too high. Why do we have to pay for the drainage?
I've lived here 10 years, and the city is well taken care of by police and fire, even though too much may have been spent on Creekside.	They are good at addressing traffic problems, and it's easy to get around town.	None.
I've lived here for 14 years (I'm 30) and it's only gotten better with the addition of Creekside.	It's central to everything (airport, downtown).	
I've lived here for thirty-eight years - the schools are good and the city is moving forward.	It has a beautiful Creekside development with great shopping, good police department, good trash pick up.	Sometimes I think they let people get away with things in residential areas they shouldn't be doing like.....running business out of their homes, junking up driveway, working on peoples car.
I've lived here several years and read crime reports, but have not had any problems. I've had good neighbors, it's not congested and people are happy here.	I like the compact nature of the city, it's bicycle friendly, I can get places quickly to shop, eat out, go to church, etc.	I'm satisfied here and would rather live here than any other place in the county

Just because.	The location.	
Just because.	The size.	
Just the development, like Creekside.	Easy shopping, convenience and variety of stores.	
Just the growth, like Creekside.	There are quiet people who mind their own business.	
Just the way they are improving the community like Creekside and making it a more attractive place.	The location to where we work and the school system.	We're very happy living here.
Keeping the schools at ONE instead of SIX, and not raising taxes.	The school system.	
Like Creekside, they are developing projects to keep up with the times.	It's a nice family community.	
Like with Creekside, they're trying to bring businesses in and we like the schools.	The schools. That's what brought us here.	
Make things nicer with buildings and street signs.	The strong school systems.	The sidewalk on Clark State Road and Clotts need sidewalks.
Many things are on the right track, some are not. We live on the west side and we don't get a lot of attention over here, however.	It's a good place to live, or I wouldn't have been here for 40 years.	
Mill Street being built up at the Creekside.	It is centrally located, a hop, skip and jump to everything.	
Music in the summertime and the festivals.	I think that everything is so convenient -- shopping centers, theater, downtown.	

Nice things that they are doing with city.	The small town feel and cost of living.	The development of Creekside was to be residential, no condo is finished, no new condo until others finished.
No complaints.	It is home.	
No deficit.	It's close to the state capital.	
No negatives.	The location.	Need better schools, need Greg Morris out of the school system.
No trouble.	There is shopping and good jobs.	Street lights. There are too many or they need to be timed right.
Not really, I just think that everything that is being done is good and there is nothing bad.	The community service that they have is good.	
Nothing specific, it's just doing fine.	Family friendly environment.	The way they design the tax bill is unfair. The penalty is unfair.
Nothing specifically.	It's not a bad place to live.	
Old Gahanna has been revamped and looks very good.	Easy to get around.	
Our real estate has improved. Road improvements and appearance. It looks good. Schools are questionable right now. And they need to have more extensive shopping.	Easy going community. Nice small town atmosphere.	
Outside is real nice.	It's quite and there are nice people.	The electricity goes out a lot. Fix it.

Parks & Recreation are doing a great job with the renovations and the bike path initiatives.	The location is good and it's a safe place to live.	
Parks and Recreation are excellent.	I'd say the general populace, the small town attitude of the people in general.	Generally, very impressed with Parks and Recs....Mayor Becky does a good job....and services are good.
Pretty much they're addressing the storm issues and the streets are well maintained.	The location is great and the city is well run.	
Put Creekside in, have a Giant Eagle.	Creekside is nice. I ran a concession stand.	Why no information about the fire dept.?
Putting up bike paths.	Easy access to downtown.	
Safety and school system is good.	It's really clean and I feel really safe.	Our street is breaking up right in front of our driveway and am afraid it will bust a tire on one of our vehicles.
School leverage. Gahanna hardly ever asks for money.	It's a safe place to live.	
Some afford to get commerce. The police are excellent, although the post office is very poor.	The convenience of getting around easily.	
Some of what I've seen, is that they are trying to get more information about community events, especially at Creekside. I appreciate that, and like the information boards also.	The accessibility.	

<p>Some things are in the right direction and some are not. I'm a little concerned about our new Creekside development. I'm afraid it's not going to go anywhere. On Saturday night, there was no one there at all. And I don't think any of the condos have sold. It was a beautiful development, but we certainly hope it moves forward. The restaurants are expensive as well.</p>	<p>We've always loved it here. I like the small town atmosphere and that it is also close to the city as well as the countryside.</p>	<p>I would like them to widen Hamilton Road.</p>
<p>Taxes are reasonable. The infrastructure is in good shape. Decent school scores. The business climate is thriving.</p>	<p>It's clean and there isn't much crime. We are actually getting our streets plowed now.</p>	<p>If they get a chance, we'd love to have our older wooden signs replaced with the new reflective ones. Zoning enforcement would be good.</p>
<p>The area is undergoing development, and that is the right way to go.</p>	<p>The location, and the city has a lot of things to do for entertainment.</p>	<p>None.</p>
<p>The availability to get to grocery stores, the closeness to things, the new Giant Eagle is convenient.</p>	<p>It's peaceful. It's a nice community and it's well kept.</p>	
<p>The city growing. The city has a wide variety of restaurants, parks, and things to do, and they try to do activities for the family.</p>	<p>The school system. It's a very nice looking city, it's clean and kept up. I feel comfortable here.</p>	
<p>The city is changing. The city is clean and the police and fire departments are good.</p>	<p>The location. It's clean and quiet.</p>	
		<p>It is a good city, I would rather live here than Westerville.</p>

The city is growing and people like it.	It's easy to get anywhere.	They need to build outside courts for kids.
The city is growing.	Good neighbors and people.	Good location.
The city is making pretty good decisions, except for Creekside. They spent \$30 million and I'm not sure that was the right move.	Bicycle One, the bike shop in downtown Gahanna. They are extraordinarily honest and you get great service there. I would also say that about Gahanna Hardware.	The water and sewer costs are too expensive. We moved into our home, which was previously vacant, and had to pay a \$500 water bill from the previous owner or they would not turn it on. If you have a small business, you are limited to a very small advertising sign. Gahanna does not help our small businesses that way.
The city is up and coming.	I like street I live on.	
The city listens to you.	The location.	They need to address girls softball issues.
The city spends too much money on Creekside, not sure where the cost is worth the benefit.	The sense of a small town.	
The closeness of the people.	The shopping, the blend of people in ages, and the activities.	No, I'm just happy to live here.
The community events, and improvement of the town in general, in terms of new buildings, etc.	The school system and the safety of it.	
The community grows and there are lots of things for families.	It is good for families and there are lots of activities and senior activities.	None.
The construction and the roads are all improved.	It's safe and clean.	Very satisfied with the city.

<p>The construction downtown -- more conducive to walking around and getting something to eat. That's the kind of stuff that is moving in the right direction.</p>	<p>The nice neighborhood. There are nicer homes and people are keeping the property up. It's a nice atmosphere.</p>	
<p>The convenience of shopping and going to the airport. It's a small town and doesn't have the problems of the urban areas. I feel safe here.</p>	<p>It's a clean place, and it doesn't have any real crime to speak of.</p>	
<p>The Creekside and mill street development turned out well</p>	<p>The small town feeling.</p>	<p>None.</p>
<p>The Creekside development -- more areas for community involvement.</p>	<p>The location is convenient to everything.</p>	
<p>The Creekside development and the development of where the old Kroger was to something to do with the high school (they bought the property).</p>	<p>Its location -- convenient to the airport and downtown.</p>	<p>The post office has to be the worst place to get into because you pull off the main drag and there is only one entrance to the strip mall. There isn't even a drop box for the mail. They need to make it ONE- WAY going through there, so everybody isn't turning in and going out at the same time.</p>
<p>The Creekside development and the reputation the city has of being a diversified city (Money Magazine and Ebony). It's one of the top places in the US for people of color to retire.</p>	<p>Friendly inclusive community with a great location.</p>	

The Creekside development is a good sign, the school system is another.	It's a small city, but not too small. It has the conveniences of a larger city, like shopping and restaurants.	I just like living here because every once in awhile I travel back East and the density of people there is so much higher - -- I like the slower pace.
The Creekside development is amazing.	It's a wonderful city. The people are so friendly and the growth has been phenomenal.	I think the police department needs to take some classes in general manners and politeness and communication with the residents. Don't act so high and mighty and rude.
The Creekside development is bringing people into the city.	I love Creekside and the boardwalk.	
The Creekside development is good and the parks are well-maintained.	The convenience of the location to shopping, downtown and things we have to access in our lives.	
The Creekside development is very good for the city because they lacked a central focal point for residents to attend activities, etc.	The proximity to my work. It's close to Easton Mall, Columbus and the interstates.	
The Creekside development offers the farmer's market and restaurants and is convenient.	Things I like to do are easy to get to.	
The Creekside development shows they are being progressive.	Safety -- it's a very safe town to live in.	In our 18 years here we've been very happy.
The Creekside development.	It has all the services real close.	It is a pleasure to live here.

The Creekside development.	The good location and the convenience of getting around.	Police tend to PULL people over and create possible traffic problems, rather than move people around a corner.
The Creekside project is wonderful.	I think the fact that it is multi-cultural and integrated - very diverse.	
The Creekside project. I do not have a lot of issues.	The location. It's close to express ways.	It's a pretty nice place to live, with a nice image.
The Creekside thing is a great boon.	The convenience. Everything is close.	
The Creekside went up without too many problems and is doing fairly well. I don't see any blighted areas in Gahanna, which is excellent. Road repair has continued, which is good. Crime is still ongoing, but that's everywhere. We have a minor problem due to being close to freeways.	I always brag that it's a big, small town and has a lot of things available with a small town attitude. You can almost leave your doors open. We don't really have a lot of shopping areas but we do have a lot of grocery stores within a couple of miles. It would be nice for my wife to have better shopping for clothes, etc. For shopping we have to go out of Gahanna (Polaris, Easton).	Just that I love the old mayor. He is now a Congressman. Initially I didn't vote for the new mayor but I like her now.
The crime rate is low. It's a good place to raise a family. The taxes are high, but the school system is good.	Easy transportation, shopping is good.	
The development and schools are in good shape.	It's a small town so close to downtown.	Schools, like just one high school.
The development and the activities.	Easy access to other areas in the city, the parks and Creekside.	want the bike path badly

The development for one thing, and it retains a small town flavor. The industry they bring in is a clean type. The school system is excellent and I have great grandchildren going to school here.	It has a good small town flavor and it's so accessible to Columbus, to Easton, to the airport and freeway.	
The development in town.	It's quiet and a good neighborhood.	
The development is very positive, and continues to be positive. The school system is great.	Where it is located. It's a good size and a well run city. It's appealing, ascetically, and has great schools.	I love living where I live and one of the top places to retire.
The development of Creekside and other developments.	The location. It's close to interstates and close to downtown Columbus.	
The development of Creekside is a clean and positive move.	The location and the convenience to surrounding areas. I can get downtown in five minutes.	
The development of downtown, the development of Creekside, and the schools are good.	The small town feeling.	It is a nice place to live. My three children don't want to leave Gahanna.
The development of downtown.	The safety of the town.	I really enjoy living in the city with nice schools.
The development of houses.	The shopping, housing, schools and neighborhoods.	I wish they would change the street sign.
The downtown - the layout is good.	Airport is nearby.	They have to do more sidewalks on Cherrybottom road.
The downtown area has been more livable. Creekside has improved the downtown area.	Everything is close , banking, shopping.	They spend more than they should

The downtown development is a nice feature and the way they maintain their parks.	They have a good school system.	We like it, it is a very family friendly place.
The downtown improvement - Creekside.	Proximity to all the features in the Columbus metropolitan area.	
The downtown project, and the schools.	The location.	Water prices are too high, compared to other cities and personal income taxes need to improve.
The downtown.	The location.	
The fact that they are looking into projects to improve the city for its' residents.	The parks - the quality and quantity.	
The festivals are good for the residents.	Location. It's close to both my wife and my place of business.	
The government is stable. The population's growing. Good economic base verses residences. Good tax base.	Access to the interstate.	Police could be more attentive to crime problems particularly to teenagers
The green space. The bicycle trails, parks, etc.	The fairly low crime rate. It's low for this size town.	
The growth and different things to make the city better. The additions to the school and the land purchases.	The accessibility to a lot of other areas geographically. It's close to the interstate and shopping.	
The growth is managed in a good way.	The school system, it's easy to get to places and it's close to Columbus.	
The growth of city has done so far good.	It's got plenty of places to eat, close knit social programs.	
The housing, the schools and the roads are all good.	The school district.	I think it's a beautiful city with a small town feel.

The improved roadways, the widening of the roadways to support the growth in population -- at least they are trying to keep up with it.	The convenience. I like the location, it's close to my job and downtown.	
The improvements downtown.	The location.	
The improvements they make on the highway and the roads, although maybe they overdo the landscaping a bit. They keep up with the all the city services except the waste pick up.	For a small town, it has a lot of churches. I think that speaks well for the city	
The improvements.	It's small, and have always liked living here.	I do not like the idea of building apartments.
The jobs.	It's close knit.	It's a nice place to live.
The leadership is good, and the services are on time.	It has a small town feeling. It's a nice place for families.	The old wooden street signs need attention. They are looking very shabby or broken.
The library and the good mix of cultures, but we lack a decent post office.	Access to area.	
The main businesses who have invested in the city are going in the right direction, but many of the residents don't necessarily support them.	I live in Old Gahanna so I like the quaintness of it. I try to support the businesses but I'd like to have a Target or something more reasonable.	

<p>The mayor and council look out for the people. There are no "yes men", the schools are excellent, there are friendly people and it's right off the freeway and close to everything.</p>	<p>It is always trying to improve. The schools are excellent. It's friendly.</p>	<p>Go in and re-establish the malls that are all ready here.</p>
<p>The mayor is doing a good job, and so is the police department.</p>	<p>The Creekside is the best.</p>	
<p>The modifications of Gahanna, the building of the office spaces, the plaza at the creek, the retail businesses. We could use more of these types of businesses on the outskirts of town.</p>	<p>It's near the airport, which is a bonus to being close and centrally located.</p>	
<p>The new Creekside area has lots of money directed for the city.</p>	<p>The location is close to everything, and it's diverse. The schools are great.</p>	
<p>The new Creekside bike path.</p>	<p>It's close to Columbus and to freeways, and it has a good police force.</p>	
<p>The new Creekside development.</p>	<p>Convenient location.</p>	
<p>The new Creekside gives a new menu for them.</p>	<p>The convenience of the city and the outer belt 270.</p>	<p>The postal service is not that great. I've seen mail laying in the road.</p>
<p>The new Creekside is headed in the right direction, and the schools.</p>	<p>The school system. They care about each student and they take time.</p>	<p>They need to watch \$ they spend on Creekside.</p>
<p>The new development center is of interest. There's a place for children to hang out.</p>	<p>Small town friendly feel.</p>	

The new developments, like Creekside for instance.	The location and its convenience to everything, like downtown, shopping, Easton, etc.	
The old revival of town is good.	The school system. The excellent curriculum and keeping up with modern tech knowledge for student.... as much emphasis academics as sports and even balance	
The parks and activities, and the flea market.	It has a quiet, small town atmosphere, the schools are kept up and the taxes are reasonable.	Pave my street. The smaller courts do not get paved. Tighten up the codes for cleaning up personal property, enforce them and charge them for not doing it in order to keep Gahanna a nice place to live. I like the dog park. There are no handicap curbs for people.
The parks, the senior center, the roads.	The restaurants, the parks and the bike trail.	They are doing a wonderful job overall.
The police and the city have advanced a lot.	It's small, and I can get around in five minutes.	
The police aren't too oppressive for the most part, and Creekside is kind of a good idea.	I think it's a pretty easy, convenient place to live. The Schools are darn good. One central high school is a good thing.	
The police protection is great.	It's real handy, everything is handy and close.	Everything is fine.
The police, the people and the community.	There is so much closeness.	It's a nice police department and a helpful community.

---

The priorities are lined up with the residents. What they are doing with the school, expanding the building. And Creekside. They are investing in the right places.

I think the location is good and the people are very nice. It's very convenient to downtown and accessible to highways and airport.

---

The project at Creekside. We need something like that, more shops and restaurants. We need a community place, the parkside walks, etc.

I like that it still stays like a down home town. I like that there are different levels of income. Now that we have Creekside and Easton is close, there is no reason to leave Gahanna. We need more places for music for adults, and I think we need a new community center.

My water bill is unusually high for a single person, compared to my neighbors who have many people in the family. I have gone to City Hall to the water dept. and have received no good assistance in this matter. The problem should be checked in to and they are unwilling.

<p>The quality of life in Gahanna is phenomenal. From cultural arts programming , festivals, opportunity for growth is fabulous. My only complaint is the city of Gahanna has allowed one builder, the Stonehenge company to build multiple residential complexes adjacent to one another ,thus harming taxpayer home value to decline. This same builder, in addition, has built the Creekside development and own multiple retail business with his development. Between the residential and business, I feel Stonehenge has a monopoly on the Gahanna city government.</p>	<p>Cost of living.</p>	<p>I love Gahanna. I love it, love it love it. I just have a problem with Stonehedge</p>
<p>The quality of life is good, police protection is good, all general services are good. I'm very pleased to live here.</p>	<p>The location is good. It's close to Ohio State, the freeway and parks.</p>	<p>Pleased living here, expand golf course, bigger and better</p>
<p>The quality of living. The recent development at Creekside, the strength of parks and recreation, the schools and big neighborhoods.</p>	<p>Quite houses. Great parks.</p>	<p>Nice place to live. It's a great place to live.</p>

<p>The renovations to the downtown, the Creekside walk, places to walk and ride bikes, community activities for families and children, good schools and the overall appearance of town.</p>	<p>The school system.</p>	<p>My only concern about the stores and condo will stand empty and that would be a detriment.</p>
<p>The road system is getting better and the downtown is improving.</p>	<p>No streets, water or sewage.</p>	<p>Hines Rd houses need sidewalks, but these 9 houses have none.</p>
<p>The roads are better. Traffic is better.</p>	<p>It is safe, that makes me want to live here.</p>	
<p>The roads are well taken care of, the city is growing and building new things. There is nice housing in the city.</p>	<p>I like the churches and the people.</p>	
<p>The school district and the overall quality of life here.</p>	<p>The schools. The education system, overall.</p>	
<p>The school district is very good. The Creekside development shows the city is interested in making Gahanna a nicer place to live.</p>	<p>It has a small town feel, it's within 10 minutes of Columbus and everything we need is here -- stores, sports programs and lots of recreational facilities.</p>	
<p>The school system is excellent.</p>	<p>The convenience of shopping and getting around the area surrounding Gahanna.</p>	
<p>The school system is good, as far as I know.</p>	<p>The look of the city is beautiful -- its always kept nice.</p>	
<p>The school system is good.</p>	<p>It's location convenient to everything.</p>	

<p>The school system is good. If I had kids, this is the city I'd like to live in. Also, the fire department and police department are very good.</p>	<p>It's really easy to hop on to 270 Interstate to get to the Easton Mall and downtown Columbus and OSU.</p>	
<p>The school system is heading in the right direction -- there are a lot of resources available to the students.</p>	<p>The schools are great.</p>	
<p>The school system.</p>	<p>It's like a small town with everything in reach.</p>	<p>It's a decent city.</p>
<p>The school systems are good. The roads and infrastructure are good. Emergency response is solid. The city is doing a good job of trying to attract residents and businesses to the area.</p>	<p>General location to work and attending functions and ease of getting around.</p>	
<p>The schools and Creekside and property values have retained.</p>	<p>We are a community of people of interacting bodies. It's a true community, not a bedroom community.</p>	
<p>The schools are doing a good job and are a step up from where we were.</p>	<p>The convenience. Everything we need is in town and is easy to get to.</p>	
<p>The schools are doing well.</p>	<p>The convenient access to everything.</p>	<p>I like where I live.</p>
<p>The schools are forward thinking and government is looking ahead.</p>	<p>The cost of living for the area is good.</p>	<p>Marcel Park Development should have followed through with residents about choice in tree selection and they should have maintained the trees that were planted. The plans were not adhered to.</p>

The schools are going in the right direction.	Our neighborhood school.	
The schools are good and the resources are great.	The safe neighborhoods and the easy access to the hospital, the airport and Easton.	Keep up the good work.
The schools are good, as well as the community support and activities.	The people and the schools.	
The schools are good.	I like the shopping and the friendliness.	They need to clean the water. I don't like the black water.
The schools are good.	The streets are clean and there is good shopping.	They need to focus on the schools, zoning does not deal with problem.
The schools are good. Development of the downtown area.	It has a small town atmosphere.	Questioning why the curbs on the Rocky Fork Drive were never repaired after the street was re-paved 5 years ago.
The schools, police and fire protection are good.	Easy access to freeways and neighborhoods.	I'm happy with the city of Gahanna.
The schools.	The number of jobs.	
The services and care the city provides makes it a nice place to live.	It's conveniently located close to everything, including the airport.	
The services and parks and recreation. They have improved roads and infrastructure.	The location and the small town feel, while being close to all the big towns.	
The services are all good.	The location - close to everything.	
The services are solid and the city is investing in new developments.	The convenience to all other aspects to Columbus.	It needs to do something about its high school.

The shopping is great. The post office is not great - it's my only complaint.	The great stores and the convenience.	
The small town is very safe.	The location is close to everything.	
The Sony community is great. Careful how Gahanna is built up, about growth.	I like everything about the city, controlled growth, I'm glad.	
The streets are improving and there are major projects.	It's close to everything and has a lot of shops.	
The streets are well maintained, as is the green space, with crews out all the time.	It has a good reputation and a great location.	
The support from the community.	It' has a small town feel, with big city stuff.	We need more handicapped accessible corners.
The taxes haven't risen much, so that's a good indication, and the services are good.	It's a good place to raise a family.	
The thing closest to my heart are the schools. The teachers are great.	The quiet, it's a peaceful and easy place to live.	Its a great place to live and the city officials do their best to make it a better place for the residents.
The upgrade to the downtown area. It's getting a little more modern, progressive looking (i.e., Creekside.)	The location. It's very convenient and close to shops and downtown.	
The way the town is growing. Things like Creekside and the school system.	New Kroger store.	

The way they are doing downtown, with the Creekside development.	My roots and the convenience of the town's location.	I'd like to see the high school size expanded. If they would have used the old Kroger store property for regular classes, not just special classes.
The whole Creekside thing, and we're really happy with the schools.	It's location, as far as freeway access and the things around here like Easton Mall and the city of Columbus.	They did the wheel chair ramps on the concrete in the city this summer and last summer. The ones they did in 2007 are cracking (dirt wasn't filled in around them and you could twist an ankle very badly).
The widening of the roads and working with the traffic control.	I like the location -- close to everything.	Traffic lights are run by computers. It seems like on Sundays when you're going South on Hamilton and turning towards the church, it's too short.
The work they've been doing. Their parks are great.	The location. The location -- it's convenient to everything.	
Their trying to improve things. It's safe here, there are lots of parks and a good school system.	There are lots of parks, concert series and a flea market.	
There are all kinds of new businesses to bring in new economic growth.	It's clean and a safe place to live, with people who are very friendly.	
There are more family orientated activities.	The location. It's close to towns and airports. I like Creekside.	The teenager's skate park is great. There should be more throughout the city for them.
There are new buildings and new businesses coming in.	The convenience. Everything we need is in town and is easy to get to.	

There are new stores at the Creekside. Things are brightening up.	Convenience to every thing.	
There are new things coming into the city, like Creekside.	There are a lot of things to do here. It's a nice place to eat, with great parks and schools.	I'm happy to live here.
There are recreational facilities and places to eat. It's convenient for many venues.	The proximity to downtown Columbus.	It's a nice small family community.
There are restaurants available, banks, gas stations and all the amenities that a resident would need to conduct daily business and enjoy entertainment while not having to go out of the community.	The convenience to get around.	Overall, I would say Gahanna is an excellent community with good police, fire, refuse services. Council members have the interests of Gahanna in their decisions and do a good job notifying us in local newspapers of events and proposed changes. The school system is excellent, too.
There have been a lot of changes made for the good, also they have brought a lot of new businesses here that have brought new jobs and revenue to the city!	It is quiet, clean, and you feel safe here.	
There have been improvements in downtown Gahanna.	The people.	
There have been major improvements and changes to the city to send it in the right path.	It is a clean city, not too big or too small, with everything that you need right here.	

<p>There haven't been a lot of scandals from City Hall, so that is good. Things are status quo.</p>	<p>You can walk at night without fear. No gunfire or gangs.</p>	<p>I do like the trash service and people, but we've had problems with the biohazard containers we need for our diabetic trash. We used to get them from Rumpke (Water Dept) but they are no longer available to us. Rumpke is telling us to put our diabetic trash in a water bottle and tape it, which is not safe and may spread disease. This is a lack of concern for their employees, neighborhood children, etc.</p>
<p>There is a lot of development, new services that seem to be good for everyone in the community.</p>	<p>I'd say it's easily accessible from a lot of different places. Good shopping, good eating places and the services are good. I've always liked living on the East side of Columbus.</p>	
<p>There is a positive commitment from the local government.</p>	<p>The community.</p>	
<p>There is active civic participation. The residents are out and about and aware of what is going on, and the officials appear to be listening to the residents.</p>	<p>It's very family oriented.</p>	<p>We're paying for water that we use for landscaping and we are not happy about that.</p>
<p>There is an effort to get activities downtown. Community activities for schools, parks. Parks are well maintained and so is the infrastructure.</p>	<p>Good schools.</p>	<p>I wish they could tax city tax from my employer</p>

There is new construction and it brings property values up.	The night life.	
There is new growth.	We have a great diversity of businesses, where you can get most anything you need in Gahanna.	The bussing is completely, utterly unfair. There is no bus route that goes to St. Matthews School. They would be on the bus for almost an hour. Grossly inadequate for St. Matthews. The corner of 62 and Stigler is atrocious.
There is no specific reason, I just feel that the developments are good for the city.	I like the downtown area and the people and school systems	None.
There is nothing negative going on, so things must be good.	There is easy access to things I like to do.	
There's a good balance between the city government.	The housing.	
There's a good infrastructure, they put more money into the school system, and they are keeping it a small town community. It's a very safe place to live.	It has a small town feel, but yet is conveniently located close to everything (airport, downtown).	The money allocated for the parks in the city budget never seems to get used for that purpose.
There's a lot, like Creekside, that is very good. You see new buildings and lots of people and it seems like there's growth.	I think the schools are good, pretty good and safe neighborhoods, the police are always there around the corner.	

<p>There's a new park and good roads.</p>	<p>The location.</p>	<p>It's a good place that needs a rec. center, like Groves Port. There are too many condos. They need to stop growing.</p>
<p>There's an abundance of parks, lots of night life, the rejuvenated things to do. It's a great place to live.</p>	<p>Good school system and probably just, you know, overall friendly people and a lot of events for the community.</p>	
<p>There's good safety. Gahanna has worked hard to keep businesses here and plan city traffic. They strongly support the schools and respond well with fire and safety protection, and those things are important. Recently, when the storm occurred, the workers cleaned up the mess and hauled it away quickly. They spend extra money to keep the alleys looking nice and orderly and all along they have worked hard to keep high standards.</p>	<p>It has a small town feel and is close to a big city and all the advantages. My particular neighborhood is called Old Gahanna and we love the historic nature of this small village feel.</p>	<p>Traffic. Granville Street is 25 mph but people speed most of the time. They widened the street and made a city intersection illegal (High and Granville) and they haven't made it legal yet! Our water costs are exorbitant, based on the prices we pay to Columbus for our water. A neighbor in another town but same zip code pays 1/3 what we do with the same size household. City Hall's responsiveness to the above traffic problems is not good. This is an issue I have gone to the City about and received no response. In our neighborhood, the water drainage is a problem and the engineering was not very well done.</p>

<p>There's less crime and it's cleaner. The neighbors are more friendly.</p>	<p>I like the smallness of the town, as opposed to like a Columbus. And, I can get to other places easily because of the proximity to the interstate, and it also has nice restaurants.</p>	
<p>They are actively building up the town with the new parks and infrastructure and shopping.</p>	<p>The proximity to downtown Columbus.</p>	<p>They need to continually work on their school system.</p>
<p>They are bringing in a lot of new businesses which has brought a lot of life back into the city.</p>	<p>This is my home. The people are friendly and it is a clean place to live.</p>	
<p>They are bringing in things to help the city grow, like new businesses and jobs.</p>	<p>It is very quiet here, which is just the way I like it.</p>	<p>I have not lived here very long to have serious input for this survey so really do not have any other comments.</p>
<p>They are bringing more business into the city.</p>	<p>The parks. There are plenty of parks.</p>	<p>We live close to a school and there are signs prohibiting parking on our stereo, but people park there anyway. The police are aware of it, but they say it's not a "city of Gahanna" problem." There's a street closer to the school that does not have any NO PARKING signs on it and it's closer to the school. Seems like they are discriminating against our street.</p>

They are building complexes and restaurants geared towards the middle class, not high end.	It's a small community.	None.
They are building up, but they do not have a good post office.	We have nice neighbors all around.	
They are developing to bring jobs in.	It's a small town and the schools are good.	
They are doing a good job, like Creekside, but the economy needs to pick up.	Easy to get around, city government looks out for people, like attention to bike and walking trails.	
They are doing infrastructure - new roads, drainage and the Creekside development brings new things in to Gahanna. They need to promote a bit more so that we get more business in there. Also, I think the governing body is doing their best to keep residential areas that way and zoning properly. When people want to build multi-family areas it does not interfere with the typical neighborhoods.	I like Creekside and have really enjoyed that area since they put it in. I go there with my granddaughter and look for minnows in the creek. We would not have done that before, but this area gives us the option. I like the availability of certain things. The landscaping is great in town and they are keeping the green space.	

<p>They are establishing a Creekside Mall, which is bringing in better shops and restaurants and condos. It is very attractive for visitors, with something nicer to see. Better revenue, and they are building better roads. It would be nice to see them build a new high school.</p>	<p>It's safe.</p>	<p>I respect it and it respects me back.</p>
<p>They are expanding with more stores, more restaurants.</p>	<p>I guess, the neighborhood, peaceful living based on the way the neighborhood and the parks are set up.</p>	
<p>They are finally bringing in new businesses. That seems to be bringing in some growth to this city.</p>	<p>The people.</p>	
<p>They are finally bringing in new jobs and business here, which is just what this city has needed for a long time.</p>	<p>It is a pretty safe place to live.</p>	
<p>They are fixing the place itself it up with new buildings and cleaning up the old part of Gahanna.</p>	<p>I like the convenience of the location and it's very safe.</p>	
<p>They are headed on the right track, but they sure do like to spend money.</p>	<p>Gets you out of Columbus. I wanted to live in the suburbs.</p>	<p>S. White gets paid a specific salary (Development) and she hired a consultant to help out any time there is anything to do. Isn't that her job?</p>
<p>They are improving downtown area.</p>	<p>It's small, the neighbors are neighborly and the streets are maintained.</p>	<p>Don't like the school district... and living here.</p>

They are improving with Creekside and with more stores.	The library, senior center, good shopping, good schools, things are easy to get to like the dry cleaners.	None.
They are keeping the land, like having parks.	The location, the people, and it's a small town.	
They are keeping the neighborhoods clean and well taken care of. There have been more police cars in the neighborhood, they've cleaned up and built Creekside, which is good.	It still has the small town feel and that I like. I like a yard and the slow moving nature of Gahanna.	Yes, please teach a computer class for seniors.
They are keeping up with the times.	The familiarity, and I know every nook and cranny.	On 62, the medium needs repair, no community center, fire station takes hook and ladder to Kroger's. Is that necessary?
They are making changes and improving.	The schools.	
They are really building up in this city, which is what they needed.	The people are nice and it is a relatively safe place to live.	
They are spending money right, doing what they are supposed to do.	It still has that small town feel. There are lots of parks, and they keep the roads up. There is a lot of work done in winter.	It's a short drive to everything.
They are starting to beautify the city more and provide more things for families to do.	It's a safe area to live and is located in a good spot.	Police need to stop spending so much money, fire department is wonderful and spend more money on programs for kids to keep them off the streets.

<p>They are trying to improve downtown to be attractive and continually improving public parks.</p>	<p>I like the convenience of the express access to the freeway, a suburban small town feel and lots of public parks.</p>	<p>Seem to have a lot of power failure, storm water system needs to be fixed soon. Emergency system and phone system calling phone system, please alert by phone to boil water. Taste of water is great.</p>
<p>They are trying to improve the area, by building Creekside and bringing in new businesses.</p>	<p>The people and the community. It has a small town feeling.</p>	
<p>They are trying to improve the transportation and roadways.</p>	<p>It's really trying to get more businesses in the community and creating more jobs.</p>	<p>I'm skeptical about the high school in the old Kroger building.</p>
<p>They are trying to make better schools.</p>	<p>It's close to shops, it's a matter of convenience.</p>	
<p>They are trying to make our community a better place to live and to shop.</p>	<p>It's the small town feel.</p>	<p>My only comment is that it is a good place to live.</p>
<p>They are trying to revitalize our downtown area. Bring in new jobs and businesses. They have a long way to go. I live on the west side and we have an empty building that would be great for the post office (the old Big Bear store).</p>	<p>It's home, is all I can say. I think the revitalization is a good thing.</p>	<p>They really need to start working on the west side of Big Walnut Creek. They have completely forgotten about the residents over here. We got a bank (woo oho). We need shopping and added traffic (like the post office) to attract more people this way.</p>

<p>They are trying to upgrade and improve the infrastructure. We've been a little behind and they're bringing us into the 21st Century.</p>	<p>It's a good mix of all kinds of people and our education level here is very high. The school system works well with the city trying to upgrade all types of people. We are getting more and more diversified.</p>	<p>The people are friendly here...most are involved in the community. Also, there are many churches that work together for various community activities...i.e., free lunch for the children every day in the summer (the ones that were on "free lunch" during the school year).</p>
<p>They are very active in the board to join the city in promoting employment. They are progressive in new projects like Creekside.</p>	<p>It has a small town attitude and it is close to the big city. It's very friendly.</p>	<p>It's a great place to live a bring up children.</p>
<p>They are working hard to improve the city.</p>	<p>The people are friendly.</p>	
<p>They bring in new stores, to town.</p>	<p>The school system.</p>	<p>Water bills are too high.</p>
<p>They brought Creekside in. The city brings in people.</p>	<p>It has a small town feeling.</p>	
<p>They deal with needs of the citizens.</p>	<p>A real sense of community.</p>	<p>We enjoy living here and the relationship we have with the city council and the mayor.</p>
<p>They did not over- build and are trying to attract new jobs.</p>	<p>The location.</p>	<p>There is a need for speed bumps - too high a speed. Better communication on the rec. programs for adults and children. A recreation center is definitely needed. Reckless teen driving is a problem.</p>
<p>They do a good job with the services and it is safe.</p>	<p>It is small town.</p>	

They have a good plan to get going.	The location.	
They have a good school system which is always updated, and they are redeveloping the downtown.	It has small town flavor, but is near Columbus.	
They have a long way to go to bring this city into the 21st century, but they are off on the right foot with the new business they have brought here.	It is a safe place to raise kids.	
They have a lot of community activities for the community at large. They have great services and a cooperative city hall.	The diverse population. Although I've seen over the years the Gahanna activity has been doing better in terms of diversification. For example the Rib Fest at Creekside. Also, the entertainment is diversified.	Taxes are just a little high -- a huge reason for us to move back to Columbus.
They have an excellent school system.	It's a small town with a city feel.	I'm very happy overall.
They have been adding a lot of shops.	Unique neighborhoods.	
They have brought a lot of new business and jobs here and they are continuing to do so.	It is a good place to raise children here. It is safe and clean and they have a good school system here.	
They have brought a lot of new business to the city, which has brought in new jobs and growth.	The people take care of one another, and it is a clean and safe place to raise children, and we have a good school system here.	

They have brought a lot of new businesses to the city.	It is a good place to raise children here, it is clean, safe, and has a good school systems here.
They have brought a lot of new jobs to the city, which is just what it needs in this economy.	It is a city in the rise and it is a pretty safe place to live.
They have brought a lot of new revenue to the city with new business and jobs.	It is a safe place to live with low crime rate and nice people.
They have brought in a lot of new businesses and jobs here, which has really helped the economy here.	We have good schools here and we have decent taxes here.
They have brought in a lot of new businesses and jobs to the city.	It is a clean and safe place to raise children and it is convenient. We have everything we need just a short distance from us.
They have built up this town with a lot of new businesses.	It is just a nice place to live.
They have cleaned it up a lot and it seems to be a safer place to live.	It is a clean, safe place to live and it is convenient to everything.
They have cleaned it up here quite a bit and the crime rate and unemployment rate have gone down.	It is just a nice place to live and it is very convenient for me.
They have cleaned up a lot of things here, and things seem to be getting better.	It's quiet, convenient, and we have decent neighbors.
They have cleaned up the city quiet a bit and are bringing in new jobs and businesses.	It seems to be a city that is on the rise and the people are nice. It seems to be a safe place to live.

They have come a long way in bringing some life to the city.	It is quiet and clean and the people and neighbors are decent people.
They have created Creekside and other new developments.	It's small enough so you know people, yet you can get around easily and it is close to everything.
They have dressed up the town very nicely and it's a nice place to live.	The up-keep is good. The police, too, plus everything is 5 minutes away.
They have excellent school districts and keep up the roads.	The schools are very good.
They have good development and foremen.	It is a small-town feeling, a big city and good schools.
They have gotten so much better on the services and have really built up here, which is just what we needed.	It is a clean, safe place to live.
They have improved on so many of the services here, and they have done a lot of cleanup, too.	It is a safe place to live, peaceful and quiet.
They have improved on so many things here, and have brought new jobs and businesses here.	Good school system, decent neighbors, and just a relatively safe place to live.
They have increased their Parks & Recreation program and it's gotten better in the last couple of years.	The friendliness of the small town feeling and the convenient location
They have made a lot of changes for the better.	It is clean here, the people are real cool, and they have brought in a lot of new businesses. Refused.

<p>They have made a lot of changes for the good by opening new businesses and bringing in new jobs.</p>	<p>It has come a long way in the past 2 years, but it is safe here.</p>	
<p>They have made a lot of changes to the city and up grades, brought a lot of new jobs and businesses.</p>	<p>Tithe neighbors look out for one another. It is a quiet, clean, and safe place to live.</p>	
<p>They have made a lot of improvements to city, such as bringing in new jobs and businesses, and just upgrades in general.</p>	<p>It is a clean and relatively safe place to raise children.</p>	<p>No, not that I can think of.</p>
<p>They have made a lot of up grades to the city, brought in new businesses, jobs, and have improved on a lot of the services here.</p>	<p>It is a low key place to live, it has everything that I need here and it is a good place to raise children.</p>	
<p>They have parks and recreation areas, and clean streets. They offer things in the summer, events.</p>	<p>It's a small town.</p>	<p>It would be nice if we had sanitary sewers in my neighborhood (Ballard and Cherry Rd).</p>
<p>They have really come a long way and have brought a lot of new businesses and jobs to the city.</p>	<p>There are good schools and good people. It's pretty safe here, especially if you have kids.</p>	
<p>They have recreation for seniors, and taxis and a park.</p>	<p>No car to get around, but I like the country side and the living quarters are spacious and clean and quiet.</p>	
<p>They have started to develop more parks and Creekside, and I read about the proposed bike path. There's more community involvement.</p>	<p>The proximity to everything. It's a good quality place to live.</p>	<p>Our electric service. AEP service is expensive and we lose service a lot. We need neighborhood zoning control. Regarding boats, campers and work trucks.</p>

They just built a new development that has brought new jobs and businesses to the city.	It's clean, and a safe place to live.	
They just built development downtown and commerce is good.	The location.	
They just improved on so many things here, like police protection and so on and so forth.	It is safe, clean, and the neighbors are nice. We look out for another.	
They just put in Creekside. The schools are excellent. Police and Fire are excellent.	Convenience to everything and the cleanliness.	no
They keep building and keeping things updated.	The friendly neighborhoods.	We need a recreation center.
They keep building new things.	I don't know.	
They keep it a nice community. It's a good place to live and the schools are great.	It's just good place to live.	Plan to retire here.
They keep the streets upgraded.	Easy - it's small.	Streamline the tax forms to make it simpler.
They keep up the streets and the new Creekside area is a bonus for the city. We have an excellent library and we don't have any difficulty in my neighborhood.	I think I answered that earlier.	

<p>They made a deal to fill two empty buildings, and the bike trails need to be updated. Creekside is good idea. We need long-term, nicer community events such as blues festival.</p>	<p>Everything is close, and the neighborhood is well kept.</p>	<p>The high schools are not up to par. They need a new building.</p>
<p>They made an effort to get new shops to improve the downtown area.</p>	<p>Central located, shops very close, grocery stores, a lot of restaurants, plays and musicals. Schools are good.</p>	<p>too much goose poop ball cant roll right</p>
<p>They make developments and improvements.</p>	<p>It has a small town feel.</p>	
<p>They need more green space and subdivisions need addressing. They are doing patchwork on the roads. More parks. The fire department has not grown like the city. I'm satisfied with the police.</p>	<p>The location is great. I work downtown, and its great. It's easy to get to the mall.</p>	
<p>They offer an awful lot for families, and I'm thrilled with that.</p>	<p>I like the services and the response from the police. We raised all of our children here and the schools are very good. I'm very excited about what they are doing with the old Kroger building.</p>	<p>I don't think so. We've been very satisfied.</p>
<p>They really care about the disabled.</p>	<p>They allow animals.</p>	<p>None.</p>
<p>They re-did downtown and they put in bike trails.</p>	<p>Things are close to highways and it's easy to get downtown.</p>	

They seem to be getting to things a lot quicker, like fixing the streets and the flooding problems.	The people are friendly, it's quiet here, and it is a relatively clean place to live.	
They seem to be going well.	The location and size.	
They seem to be trying to bring business and put in a small place.		21 Not try to keep up with the Jones', It's good as is.
They seem to do a good job with city services.	None.	Survey is a good idea and hope they listen to it.
They seem to have a lot of activities and the market down here. They seem to have a lot of good things going, like a dog park.	I'd say it's the children's activities and the police department is excellent.	
They started a lot of building.	It is still small enough and you know everyone, and the services are great. They're very cooperative.	
They started with the YMCA. The downtown was shabby and they've upgraded that. I grew up in Worthington, and they are updated like that. The bike path is too late, but finally being done. Everything is coming around, but taking some time.	We work pretty close to Gahanna. It's the convenience of travel and traffic. There's still somewhat of a hometown feel, and only one high school, which is good. And the diversity.	
They're always improving the city.	Nothing.	
They're building more.	Creekside has nice parks, an active senior center and lots of churches.	
They're building new places.	It has a small town feel.	

They're building new things, like Creekside.	It's a small town. It's a nice area and the location is convenient to the highways.	
They're building up and fixing the old parts of town.	The people and the safety.	Look to improve traffic.
They're civic minded.	The safety and the community. It's a friendly city.	The zoning of churches should improve.
They're developing more jobs and things for people to do.	It's a quiet community with little crime.	No, I like it fine.
They're doing a lot of new development and they're building more new homes.	It's a nice small town area.	
They're doing projects for kids, and I like what they did with Mill Street.	Small town city.	I'm unhappy about the ponds in the Foxwood subdivision.
They're looking to improve recreational facilities and encouraging businesses to come to the city.	It's a small community on the outskirts on a larger metropolitan city.	
They're making improvements for families.	It's close to Columbus.	think Creekside rent is too high. It's out of reach to the average person.
They're making progress, but keeping the small town feeling.	The location is central to everything I need.	
They're moving into the future.	It has a small town feel.	It's a great place to live.
They're starting to reach out.	It's clean. If there are any problems, the police are right there. It's a safe, clean, nice place to live. People go out of their way for you.	

They're trying to bring in more employment and maintain street repairs and prompt snow removal.	So far, its been the low crime rate.	I've enjoyed living here.....raised my sons here. Its treated me well.
They're trying to bring new business into the city.	The location.	The police need to be more understanding.
They're trying to develop the downtown area.	My location, west of the creek.	I appreciate the traffic light changes and updates on the intersection of Agler and 62 and Stygler and 62. It has made the quality of my daily life 100 percent better. The person who did this should have a RAISE.
They've attracted new businesses into the area.	It has retained its "small town" atmosphere but it also is conveniently located to downtown and Easton Mall.	
They've done a great job with housing and neighborhoods.	The convenience of the city's location. It's close to everything we are interested in.	
They've done a nice job of rebuilding the downtown. It's a well run city, and the school district is good.	The school district.	
They've improved downtown, and there is very little crime.	It's safe and quite. It's easy to locate places and the schools are good.	
They've made good upgrades.	The school district.	
They've made improvements in the city, but I don't like the idea of Hamilton.	The people.	
Things are being built.	There are stores close by.	Post office is to hard to get to, hard to find parking.

Things are creating a situation where people want to come and visit the city.	It has a small city atmosphere.	The parks and recreation needs to make accommodation for lacrosse program. Need to look for ways to lower taxes.
Things are fine.	It's a nice place to live.	
Things are going well and the schools are improving.	It's clean and friendly.	
Things are improving with the schools and there are plenty of things to do.	The school district.	
Things are under control and people are happy with the progress.	The senior activities and the library. You can walk to it.	
Things have been very good. We've had very good people here, including the Mayor herself, who are running it.	It's a quiet little city. It's one of those towns where you can leave your doors unlocked and no one will come in.	Woodside Green's ponds are being ignored and should be cleaned up. I fish there sometimes and it has been a forgotten area of the park. It needs to be treated in the spring for it to be presentable.
Things like the Creekside development, the parks and recreation department is keeping the parks nice.	I think the small town charm, neighborhoods are friendly and everything like stores and restaurants are convenient. Also, convenient to downtown (Columbus) and Easton Mall.	

Time to bring businesses into the town.	Things are convenient, but they need a grocery store in my part of town.	The senior center is not doing well...the paper does advertise enough for seniors...so there is low attendance. The advertisements do not always make it into the paper on time.
To provide more service and better traffic control. Creekside is good.	The conveniences.	It is a good place to live. The rapid growth is displeasing to me, very limited property left to develop in the city.
try to see things better, need sewer, Recreation is good.	For me, distance to work, location to everything.	
Trying make sure they provide things.	I like the small town feel and it's easy to get downtown.	
Trying to developed the community and straighten out the schools.	The location and it's proximity to the city of Columbus. It's a diverse community.	
Trying to improve downtown traffic.	The location and freeways.	
We are getting more restaurants and the roads are good.	It's close to everything. It's a quiet community.	
We are growing positively.	The location.	Water bills are too high. They should not have paid parking at Creekside.
We are growing. The overall community, businesses and things offered in the city.	The location and the people.	Water bills are too high.
We don't have a lot of crime and people are content.	It feels like home.	I'm still here, so it must be all right.

<p>We get great enjoyment out of the parks and recreation system, and the concerts. We are satisfied with Creekside. We had some reservations (too big) but are taking advantage of it and love it now. The stores and businesses are great. Everything is here and we don't have to leave. We are somewhat concerned about the traffic problems and don't want it to be overpopulated. Too much traffic will effect our quality of life.</p>	<p>The small parks, the creeks, the school system is good and my grandchildren are doing very well there. The fire and police seem to be very good. I don't see them so much anymore, but I like to see them on their bicycles. And the bicycles for people are great, although there is more work to be done on the paths. A concern is that the children have to cross busy streets on their bikes to get to them.</p>	<p>A person from another suburb was talking to me at Creased. He thought it was a smart thing for Gahanna to do and that other suburbs were dying. It put things in perspective for me. We might need an east/west road or bike path to reduce the congestion. I don't know the answer to that, but we need another connection so that we can take some traffic away from 62 into Old Gahanna.</p>
<p>We have a good mayor. She has a good head on her shoulders.</p>	<p>It's close to Columbus without all the traffic.</p>	<p>I think it is a great place to live.</p>
<p>We have a lot of homes for sale now, but the growth and the schools have been very good. The upkeep is good in the city, as well.</p>	<p>The convenience of everything like the airport, highways and shopping.</p>	
<p>We have a lot of very nice restaurants, the city is clean. The police are on top of everything (and the fire dept.) and it's a pleasure to live here.</p>	<p>It's homey. We have fabulous neighbors.</p>	
<p>We have a progressive government. They are adding new features to the city. Bringing business to the community.</p>	<p>The schools. The quality of the school system.</p>	<p>I think it is a good place to live and raise a family, with good schools and a good police department.</p>

<p>We have a ways to go, but it has come a long way with new businesses and jobs that they are bringing in.</p>	<p>It seems to be a safe place and a relatively clean place to live. It's a half way safe place to raise children.</p>	
<p>We have enjoyed living here and have lived here a very long time.</p>	<p>No worries, I am very happy.</p>	<p>We are very very pleased living here.</p>
<p>We have good city services, people get along and we have good commercial services.</p>	<p>Everybody gets along.</p>	
<p>We have two children in middle school, and moved here because of the schools. We like where we are, and our only issue is the desire for more diversity. There is an effort towards that.</p>	<p>I like the educational system and the way that education is revered in this community.</p>	
<p>We love our location and it's easily accessible to everything.</p>	<p>It's convenient and our services are very good.</p>	
<p>We moved here from Westerville and have had no downturn in attitude.</p>	<p>Comfortable with all activities for citizens of all ages.</p>	
<p>We try to keep things up to date, with new interests, and make it a place for people to enjoy living.</p>	<p>It's close to the freeway. It's small city living, and has interests you want to do.</p>	<p>I'm satisfied with living in Gahanna.</p>
<p>We utilize a lot of the parks and recreation areas. We use them for exercise and we're pleased.</p>	<p>The availability and number of parks and recreation.</p>	<p>Old Ridenauer road needs to be improved, city recently added fire hydrants, in the process damaged the road (last few months) -- haven't been back to make the repairs.</p>

<p>We were recently rated as one of the top cities to retire to.</p>	<p>I enjoy the ease of access to other thoroughways and the snow removal.</p>	<p>I believe the quality of schools could improve.</p>
<p>Well, all the improvements down at Creekside are definitely the right way to go.</p>	<p>All of the pickups (trash) and city services. Senior center is good.</p>	
<p>Well, they built that beautiful Creekside place. They make sure they take care of the parks and I think they are doing just what they need to be doing.</p>	<p>It's a small town, and they work well and get the things done that need to be done. Things like taking care of the parks and building new developments, like the walks around the creek.</p>	
<p>We're are trying to draw in more businesses. Creekside has it's pluses and minuses.</p>	<p>The properties. They seem to do maintenance on them. There are not too many slummy areas.</p>	<p>Promises, promises. The water department promised to re-grade the area behind Denoon (sp?) Dr. regarding a tree growing out of the sewer system. Incident where a neighbor made a report regarding eggs at a house and the police told him to drop the incident. If a report is made the police give the perpetrator the name of the person making the report.</p>
<p>We're growing in a positive way. Gahanna is growing, and they have created a lot of things for families to do.</p>	<p>The safety and the closeness of everything.</p>	
<p>Were happy living here. We like our neighbors. There is good service, good businesses, and it's convenient to other areas and 270.</p>	<p>Friendly neighborhood. Moderately priced to live.</p>	<p>Our biggest concern to Creekside. Less cleaning at Creekside and more concern for residents and other businesses.</p>

<p>We've lived here 18 years and we bought this lot as a scenic one and knew nothing about Gahanna. We've been very pleased with the services and the community since then.</p>	<p>I would say Creekside, it's very attractive and it's a good place to take walks and visitors.</p>	<p>No, we're very pleased to be here. I agree with the sign that says "One of the 100 best places to live"</p>
<p>We've recently developed a site called Creekside. It's great for families and visitors alike. We have great parks, shopping and nice suburbs. We're centrally located.</p>	<p>It's a safe community.</p>	<p>It's a great place to live.</p>
<p>What happened downtown and the improvement of our streets, and the water problem they fixed on the east side of Gahanna are all positives.</p>	<p>It's a very proactive city. We have a lot of parks and functions, and it's nice to participate with family.</p>	
<p>When we first moved here in 1974 it was a very small place, but it's improved with fabulous schools and new homes.</p>	<p>It's an easy area to get around in. Everything is convenient and the school system is fabulous.</p>	
<p>With all the new businesses and jobs they have brought here, I'd say that is the right direction in this economy.</p>	<p>It's clean, safe, and the city takes care of their residents.</p>	
<p>With this new Riverwalk, with all the new stores and cleaning up the city. The schools are doing a good job getting them educated. It's a pleasant place to live.</p>	<p>It still has a small town feel with all the new features.</p>	<p>Only that I enjoy living here.</p>
<p>Working on development of the city.</p>	<p>I enjoy people and shopping.</p>	

You have your act together, bringing in business as you can.	The progressiveness of the city. They are seeking new businesses and promoting advancement.	My grumble is Hamilton road -- keeps changing from 2 to 5 lanes. There is still a hang up with the traffic. Need to stop listening to everyone with different plans....just pick one and do it.
		37 Yes, concerned parking Old Gahanna events.
We're spending a lot of money that might not generate any long range return on the municipal funds.	Accessibility to anything you need .....Columbus, Easton Mall, Airport is right off the interstate.	
	Bedroom community, pretty good.	need to maintain see how Creekside goes first
	Being able to get around -- the convenience is great.	
	Close to airport, outer built, downtown.	
	Close to work.	I think they are spending money on bike path and Creekside, police need to focus on crime and not write so many tickets on minor traffic violations to generate revenue, and focus on value added projects like roundabouts.

	Convenience for travel.	damage to car over at the high school. Need better police coverage. I was very pleased with the city in regard to damage from the hurricane . When they resurfaced the streets, they did not finish all the curbs
	Creekside, a neat place to go to and it's unique for its creek-side location, footpaths, etc.	
	Creekside.	Too many chain stores around.
The cost of living, because I am a senior, living on a fixed income. The water bill is too high.	Creekside.	
We have lived here for 20 years and we have seen a very pleasant rural area become not so pleasant. Large empty store fronts, condos and no good post office.	Ease of access to downtown because of I-670	Gahanna is heading in the wrong direction when they changed the zoning to allow Big Bear which is now empty.
Too many apartments going up and not enough control over buildings.	Easy access to interstate and other cities.	I get double taxed.
	Everything is maintained very well here, such as the neighborhoods and the homes, etc.	

I live on the west side of Gahanna. They care too much about this darn Creekside thing. They are ignoring my side of the city.	Excellent Fire department. I lived here for years. I like the place, but the taxes are killing everybody.	I'd just like to see them stop taxing everything in sight.....they aren't taking care of us senior citizens....I pay the same price for products that everyone else does.
	Facilities, library, traffic is good, shopping, convenient, easy to go downtown.	I think nice to live there
The new buildings are not inline as when they started. Too many odd balls of architectures.	Feeling of knowing your neighbors.	It's trying to outgrow itself.
I don't think much of this Creekside thing. It attracts a lot of outsiders and strange elements. It's a lousy venture and I predict they will lose their shirts.	Forty years ago it was a nice quiet village. I'm not crazy about progress, anytime or anywhere. We're losing our green country.	
	Good location and schools.	use the web site more when there is one time deals, update of snow or post short term info like breaking new or emergency news
If it weren't for Jefferson Township, we wouldn't ever see a snow plow. The other thing that bugs me is that when we say we don't want Gahanna water, yet Gahanna spent the money - for one person.	Good school system.	
First, they don't allow auto repair and there are no minority owned businesses.	Harrison pawn.	

	I am a single woman and I feel pretty safe here. The people here look out for one another.	
Things are hard for people.	I don' t know.	it is a clean city....people are friendly
People don't care about anything anymore. They keep building things here and people don't care about their homes anymore.	I don't find a damn thing good about this city any more. I wish I could sell and get the hell out of here.	
	I don't know.	
I think some of there projects are pretentious, wasteful and actually stupid.	I feel fairly safe.	I think there is a questionable relationship council and Stonehenge. I think our schools are deteriorating. In fact, I know they are.

<p>The Creekside development is a flash in the pan. When the novelty wears off, the people will stop coming and the businesses will suffer.</p>	<p>I go to the Senior Center a lot and it's very nice.</p>	<p>I would like the city to remove the center island that divides the North/South traffic (Hamilton Rd). The housing for the handicap they put in diverts traffic so all these people have to turn around in our driveway (The Villas of Gahanna). There is really no need for the island. Also.....we pay city taxes here (the Villas) and yet we don't get any of the city services like snow removal, trash pick up or street paving -- yet we pay the same city taxes as those living elsewhere in the city do. Maybe they can take the money we are paying in taxes and use it to remove this traffic island that doesn't belong here. Its actually a safety issue when all kinds of cars are backing in and out of driveways to turn around....we have children and older people walking around there.</p>
<p>I guess it has a low crime rate.</p>		
<p>I have been here all my life. Right now, it's very peaceful.</p>		
<p>It used to be a quiet place to live, but they have built things up so much around here that things just aren't the same any more.</p>	<p>I have good neighbors that look out for one another. If there is a problem they take of things quick in this city</p>	
<p>I have not lived here all that long, but the people seem to be nice.</p>		

<p>We do not need to develop any more. It's wasted energy, going into wildlife areas for box-like development. It is a waste of time money and wildlife.</p>	<p>I have seen the crosscut of culture and ethic diversity of the city, and I like it.</p>	<p>I despise the local city tax. The taxes are the worst tax forms and tax system, ever. I do not mind the taxes, it's the system.</p>
<p>The Creekside project has become a big hindrance to traffic and it has exceeded the budget. I do not know what the justification was for this significant investment. We have too many pedestrian stops, too many cars and it has made our life much harder. It has been totally done for the shopkeepers vs. the people who travel there every day.</p>	<p>I like best the convenience. It is not far from Columbus and the neighborhoods are nice. The people are nice.</p>	
	<p>I like Creekside.</p>	<p>The school system needs to improve.</p>
<p>They didn't think about spending the money for Creekside wisely, and they are not doing what's important first, like dragging the creek.</p>	<p>I like downtown.</p>	<p>None.</p>
	<p>I like school system and the airport.</p>	<p>The electricity keeps going out in the dead of winter. Please fix it.</p>
	<p>I like that it's a place where a lot of families live. We have a family and it's very family-oriented. The schools are also good quality.</p>	<p>Please lower the water and sewer costs that the city charges.</p>
	<p>I like the fact that it's a small city, with a small city feel to it.</p>	

<p>I have problems with Mill Street and how that boomed up, and that they are not sitting there a little stagnant. How many studies did they do before starting that? The police in my area also fly up the road (speeding) and it is unsafe - I'm on Stigler Rd.</p>	<p>I like the location and the people.</p>	<p>I did not receive fair treatment from the city prosecutor in a recent personal case, and have carried that bad feeling for years. Also, we live in a heavy tree street and have lots of leaves and we are charged for leaf pickup, which I don't think is fair. Other cities do this as part of the city service.</p>
<p>I like the people here. Everyone seems to look out for one another.</p>		
<p>There's too much abatement.</p>	<p>I like the police protection and they have an excellent fire department and ambulance service.</p>	<p>In the area of taxes, you assume we're competitive but we are taxed for sewer, water improvements which are hidden taxes. The other major problem is that we do not have the balance in government (legislative and administrative). They seem to be a mutual admiration society and haven't demonstrated any imagination in terms of projects.</p>
<p>I like the size of the town. The schools are good and everything is close by.</p>		
<p>I like the small town feel.</p> <p>We need the green sign to be easier to read. Start projects on both sides of the city.</p>		

<p>They are building too much. The actual building is not good, it could be built better. They are using too much money on certain projects. The city is growing too quickly.</p>	<p>I like the small town feel. I would like to see it stay the same.</p>	<p>Trash pick up people are really really, really bad, they leave trash all over the place and the cans are all over the place. The city forgets about the older parts of the city when they fix things or develop stuff.</p>
<p>They're spending too much money on Creekside. They're wasting our money on stupid things, then asking us to pay more on other things. They're overspending.</p>	<p>I like the trees and parks and the people, and like the shopping places.</p>	
	<p>I like what they did with Creekside. It made the city look nice and I like the fact that they still have one high school.</p>	
	<p>I think the feeling of safety is the thing, a better breed of citizens.</p>	
<p>I'd like to see any of the businesses we get stick around, without having to give them a tax rebate.</p>	<p>I think the friendliness of the people and it's close to everything.</p>	
<p>I'm not terribly happy about the traffic that resulted from inadequate planning of the construction on the east side. I don't know how much the people of Gahanna have invested in the beautiful Mill Street area, but I don't think we'll get money back out of it. The 62 highway was not planned well.</p>	<p>I think the people are great. I like the diversity, and the schools are fantastic.</p>	

<p>People move here because it is a nice place to live, but with the new developments that have come in, the reason people have moved here in the first place is lost.</p>	<p>I used to like the peace and quiet but over all it is a safe place to live.</p>
<p>City Council is spending too much money on frivolous projects. The Creekside development has been a large investment and will eventually be an empty shell. Businesses can't afford to rent the space.</p>	<p>I would think we've had good development, there are more restaurants and that is a good thing. The schools are desirable and we raised our children here, we still have one there. The police department is very responsive.</p>
<p>I think that with Creekside it is going in the wrong direction. Spending on what is not going to be developed.</p>	<p>I'm not finding too much desirable about Gahanna.</p>
	<p>It a small town and the location.</p>
<p>I think we spend more money than we need to. An example would be Creekside with its multiple hanging plants. We could go a little less exorbitantly.</p>	<p>It has a little bit of everything....shopping, entertainment, parks, things to do, and it's good to raise a family.</p> <p>I would like the people that work at the Water Dept that not everyone is trying to scam them. They treat everyone who comes to them as wrong without even looking at the issue.</p>
<p>There is too much emphasis on Creekside.</p>	<p>It has a small town atmosphere.</p>
	<p>It has real good schools and the people seem to care about one another. It's a relatively safe place to live.</p>

		It is a convenient place to live for work and other places.
		It is a lot closer to work and the people are nice here.
It used to be a quiet place to live, but they keep bringing in all these businesses and shopping malls and it just isn't the same anymore.		It is a low key town.
		It is a quiet place to live.
		It is a safe and clean place to raise kids with lots of things to do.
		It is clean and the people are nice.
I think the city is trying to go too fast in terms of developing -- some of the things they are bringing in just to bring it in, whether there's a need or not.		It is close to a lot of things like my job, entertainment, dining, etc.
		It is close to the places that concern me.
		It is convenient and is close to everything I need.
		It is convenient and the people look out for one another.
		It is pretty quiet here.
		It is quiet, clean, and the people are nice.
Taxes are too high, but I like the school head.	It is still small.	More things to do.

	It is very convenient for us, as far as work, and seems to have everything that we need close by.	
	It is very quiet and peaceful in my area.	
	It seems to be a low crime rate here, and the people are nice.	
	It seems to be a nice, safe, clean place to live.	
	It seems to be a relatively safe place to live, it is pretty clean here, the people are nice and it has everything that I need.	
	It seems to be a safe place to live and we look out for one another here.	
They're giving away too much property on tax abatements, like Creekside. I don't see how they'll ever get their money out of there.	It was nice and quiet when I moved here. I like it because it is very safe around here.	Straighten out the Creekside mess -- cut and run -- don't put anymore tax money into it.
	It's a clean city, people are nice and it's close to everything.	Fix my street.
There are things that aren't necessarily needed. The city is getting too much into businesses, i.e. Creekside. They're trying to make the city itself a business, but not make it the overall thrust of city. Taxes are being tied up into the business venture as opposed to city services.	It's a clean city.	
I don't know.	It's a good community.	
We have the wrong mayor and police chief.	It's a hard working community.	don't have vision that they need
	It's a nice middle class town, a good place to raise the kids.	

<p>Hamilton Road being 2 lanes for forty years, they talk about widening it and nothing ever happens.</p>	<p>It's a nice place to live because of the people and the convenient location.</p>
	<p>It's a peaceful place to live.                      Animal Control stinks. They need to improve the services.</p>
	<p>It's a pretty area to bike.</p>
	<p>It's a superb small town.</p>
<p>I think some of the development issues have been off base lately. The government got a little carried away with Creekside. Some of it's due to the economy now, but some of that could have been predicted. And, the school board and the city are off on the wrong track and they are getting too cozy with Stonehenge (developer for Creekside).</p>	<p>It's been a good place to live and raise a family. It's a nice suburb and has good schools.</p>
	<p>It's cheap.</p>
	<p>It's clean and quiet.</p>
	<p>It's clean, convenient, and it has a good school system.</p>
<p>Taxes are too high. I don't like the way they do their streets. It's the way they lay them out and we have only one bridge for 40,000 people. If we have a fire over here and the bridge goes out, my house burns down.</p>	<p>It's close to things. We moved here over 20 years ago and had to travel 2 hours to the airport. We don't have that problem here. The loop is here.                      There should be better control of traffic problems off of 62. There should be traffic cops out there from 4-6 p.m. to handle this...and it's not just people who live in Gahanna.</p>

	It's close to work for my wife and I, and it seems like a safe place to live.	
The Creekside development is a mish-mash. The food is awful and expensive.	Its closeness to 670 so I can get to work.	
	It's friendly. Family and kid friendly.	
We are both handicapped - blind - and there is no bus transportation, no sidewalks until you cross Hamilton, and people are not careful when driving.	It's friendly. There are new stores and it's growing.	Better services such as bus transportation and sidewalks.
	It's just a nice, friendly place to live.	
	It's just convenience. It's close to places you want to go to, and not too far from the city or suburbs.	I don't see any real problems, but I am concerned about the speed limit on Morse Road, east of Hamilton, where the road narrows. It's gotten worse since the development and they go too fast.

	It's kind of laid back. It's relaxed, stuff is available, but I don't feel like any of it is in my face. I like the fact that I'm on a residential street that is not heavily trafficked but I can get to things easily.	The recreation schedule of classes doesn't work with my work schedule. It would be great if classes were offered around 6:15 or 6:30 (yoga class, exercise class). My neighbor put in some cement on their property, which caused a water drainage problem for me. I contacted the city engineering dept and they were not at all helpful in getting this problem solved.
We put a lot of money into buildings like Creekside, but our city services are suffering except for police and fire.	It's location. It's centrally located to all of Central Ohio, near the airport and interstate.	
Suburban sprawl.	It's nice and the neighbors are quiet.	It was pleasant 20 years ago.
The cameras at the intersections.	It's not too populated and there are open spaces and parks and the people are decent.	
	It's quiet. Not too much goes on around here.	
	It's quite.	
	It's relatively cheap, and I like the people.	
They're spending too much money on Creekside and it would not profit us too much.	It's small town living. It never seems to change, the friendliness of people.	I love the city
	Its the location. It's close to just about everything.	

Taxes are getting too high.	Its the small towness of it and the convenience of it -- we're handy to everything.
I'm not happy about Creekside. It's beautiful, but I think the city is going to lose money on it and we are going to end up paying for it.	It's the small village-type feeling that I like.
I think that some areas are receiving preferential treatment by the city. The airport area doesn't get as much attention and they're letting it get run down.	Its very convenient -- not hard to get downtown and there's a lot of stuff to do around here, like shopping.
My taxes have quadrupled and it seems like the Water is coming from China based on the rates.	It's very convenient to get around the area with the interstate.
I don't understand Creekside. The first part of it, cleaning up the boardwalk area is fine. But, I don't go along with all the stores and restaurants that they are bringing in. They are trying to make a silk purse out of sow's ear.	It's very convenient to get around to the stores and visit friends. Nice people here.
	I've raised all my kids here. It's a good place for kids.
	Just the whole area and the new additions. It's a great place. They need to put a road across Walnut, to get into the city more easily.

	Location to airport, to Easton and the easy access to the interstate.	The moratorium on cell towers has been real difficult on people. Wireless network is a huge mistake. The school leadership needs to be revisited. The head of Parks and Rec is doing a great job. I would love to see more of police in my neighborhood.
All of this building and changing from residential to industry - but they have not kept up with the roads. They have visions of grandeur.	Location to downtown.	What upsets me about the planning commission, is that you have two parties. The home owners and the developers. The way they conduct business, they do not give equal opportunity to the residents. They take it for granted that the residents understand what the developers are talking about. They don't conduct the meetings on an even keel. None of information is ever circulated to the homeowners.
	Low taxes, and it just a nice, clean place to live.	No, not that I can think of.
	Not too much anymore, people just don't care the way they used to.	
	Not too much anymore. There have been too many changes and they are building too much, too soon.	

	Not too much. It is too quiet here for me.	
People move here for the peace and quiet, and they are bringing in too many businesses that have made this city too congested.	Nothing any more.	It is not what it used to be here, that's for sure.
Too much traffic and congestion. It is not the quiet, peaceful place it used to be.	Nothing any more.	
	Nothing.	
They are bringing in too many businesses and focusing on that, and not on what they need to focus on.	Nothing.	
	Our neighbors, it's clean, and for the most part it's a safe place to live.	
The police. I don't like how the police work her in Gahanna.	Schools, shops and restaurants.	I'm not very happy about the police department.
I am not happy with the Parks system. They don't have good softball facilities like Westerville.	Small town feel.	They need to widen Hamilton Rd.
The Creekside development is too much work for them. And, there is a light post from the storm still lying on the dugout at the baseball field.	The bike paths at Creekside.	

<p>I have problems with some of the things they are trying to propose. I worked with the Convention and Visitors Bureau, which I think should be by itself vs. Gahanna events and the Chamber. That's one thing. I think we could use a change in some of the officers (I won't say which ones).</p>	<p>The community itself. The people get together and it isn't overcrowded.</p>
<p>There's too much building and nobody going into it.</p>	<p>The community schools.</p>
	<p>The convenience and the people.</p>
	<p>The location and community activities. Keeping the taxes low. No tax increase.</p>
	<p>The location and quality of life.</p>
	<p>The location and the convenience to get around the city. It's easy to get to Easton or downtown, also close to the Interstate.</p>
<p>They do not be care about who they are allowing into leadership. I think they are being dictated to by alum.</p>	<p>The location and the small town feel.</p>
	<p>The location in proximity to a major city.</p>
	<p>The location is convenient to jobs and recreation.</p>
<p>The money for Creekside is not a good idea. It's going to flood.</p>	<p>The location is convenient to the airport and downtown. Everything is within 30 minutes.</p>

I think they are spending too much money on things like Creekside, but not on things that should have a higher priority.	The location is very convenient.	
	The location, relative to Columbus and the size of the city.	Like to see more athletics for girls.
	The location.	
	The location.	
	The location.	They need improvement on electric.
	The location.	
	The location.	
	The location.	
Over spending money on downtown Gahanna, and now it's lost its small town flavor.	The location.	Improvement on the school system.
	The neighbors are nice and friendly, and seems to be a safe place to live.	
They're putting too much money into Creekside. They put too much money into their projects.	The open spaces.	Gahanna taxes small stores too much, then wastes that money on stupid stuff.
The money should be going to other uses. I'm not thrilled with the amount of money spent at Creekside.	The overall location of it, in the center of the state.	
Some of the political people and appointees within the city government, I don't trust. I am a business owner in Gahanna.	The overall quality of life is great. I'm here because it's close to the airport, it has parks and creeks and lots of things to do.	

	The people and it is a safe place for kids to grow up.
	The people are cool, and they seem to get things done pretty quickly if there is a problem.
I think that the zoning laws need to be changed. Too many businesses are too close to housing developments, and that's not a good thing.	The people are extremely friendly, the schools are good, there are quality places to shop and nice restaurants to go to.
	The people are friendly.
	The people are nice and friendly. It is convenient for me, and we have good schools here.
	The people are nice and it is a safe place to raise children.
	The people are nice, caring, and we look out for one another.
	The people are nice. Other than that I can't really say, because I have not been here that long.
	The people are very friendly here.
	The people look out for one another here, we are very close, and it is a very safe place to live.
	The people.
	It's a good place to live. Better than some.

Because of the rezoning, they are now placing a hotel next door to me.	The people.	
City Council spent too much money on Creekside, and lost one business.	The people.	Like to see slack off single family homes.
Some of the people they allow to come in for certain rentals, because they don't maintain the property, make us all look bad. Trash sits around, the grass isn't cut.	The police department is excellent, in terms of response and assisting residents. Very timely and efficient. The fire department is also very responsive.	
	The quality of the people. These are honest, caring people.	
	The school district and the fact that everything is close by.	Since the power outage the city workers are just standing around.
The apartments over by Stonehenge (west side of Hamilton Road) are too much for the city and the schools to support. The school system will not support them without going downhill.	The school system is excellent.	
They need to be more family orientated, and need more stores in the plaza.	The school system is great.	
The city is looking too far into the future, and the taxes are making it difficult for the seniors who have been in the city all their lives.	The school system.	

They built all those condos and no one is living there. The rent is too high. I drove there and Panera is out and other places also going out. It's an awful waste of money.	The schools are good.	I just don't like the free range of money for wages.
	The schools, and the decent taxes.	
	The schools. The size.	Stop building all the time. They need to reduce water bills. Also, when they do build, they build very slowly and they don't finish their projects, and sometimes they don't think about money cost when they do these projects. I think that the city should not have to invest into Creekside. I think that they should tax the stores for the project. Also, I think that Gahanna school system is very poor and they need to improve the education system.
	The small town feeling.	I would like to improve on the post office parking lot.
The city is building more and it's turning out really nice.	The small towns and Creekside.	We need a sidewalk on Schull Avenue. The road is too busy and I'm afraid that kids will get hit by cars. I feel that they only need one side with sidewalks of some kind for safety.
A lot of people here seem to be racists.	The taxes are pretty cheap.	
	They are small community.	None.

When my children were little, I had no problem with them walking to town or school. Today I wouldn't let them do it, but that is everywhere, not just in Gahanna.	They have all kinds of things and activities for children that keep them busy and out of trouble. Their children's programs are outstanding.	
	They seem to get things done very quickly here, as far as the city goes.	Refused.
	This is my home. My family is here and it is close to everything I need.	
The taxes.	Urban hunting.	It's a nice place to live.
	We have decent taxes and schools, and the people are nice.	
	We have good, decent neighbors.	
The high school. I do not understand why they have separate parts. Isn't it segregation? And all the money they have spent at Creekside could be put to other uses. The streets need repair, at least some of the streets.	We have very friendly people in our neighborhoods.	Its a scrambled city... one part new and one part old. If they are going to do one part, then due the whole thing new... give it some class.
	We like our neighbors, they are very nice and we look out for one another.	
	Well, I like our neighborhood because it is a close knit community.	
	Where I live it is friendly and we take care of each other.	I do think you need to pay attention to the empty building.
	Where I live it is quiet, and I like that. I like the openness.	
	Where I live, on a dead end street.	I think it is silly to purchase the Kroger store to build a high school. Post office instead.
