

**Ashmead Drive Street Infiltration Project  
Construction Notice  
September 9, 2016**

Columbus Asphalt Paving Company will be reconstructing a portion of Ashmead Drive from between the addresses of 1004 and 1040. The construction project includes complete roadway removal, installation of an underground storage chamber, new concrete curb, concrete pavers, and replacement of impacted sidewalks and driveway aprons.

**Ashmead Drive will be closed to all traffic at both ends of the project starting Tuesday, September 20<sup>th</sup> until approximately October 28<sup>th</sup>, 2016, weather permitting. Driveways in the work zone will remain accessible for most of the project duration. However, there will be a period of time, not to exceed 16 days, which the drives will be inaccessible.**

Vehicle parking will be everywhere on Ashmead Drive that is NOT located in the construction zone. Trash, recycling, and mail delivery will not be impacted.

We apologize for the inconvenience while the contractor constructs this innovative street/stormwater project. We will make every effort to minimize delays of the project. Please abide by the road closure at all times. These are put in place to protect the workers as well as the traveling public.

For questions related to the construction on your street please contact City of Gahanna – Project Administrator, D. Grant Crawford or Jeff Feltz, Water Resources Engineer at (614) 342-4005.
