

## ***ENGINEERING FEE SCHEDULE -***

### ***Plan Review Fees:***

#### **Engineering Plan Review Fee (rounded to the nearest dollar):**

1% of Private Storm & Erosion Control costs.	Engineer's Estimate: _____ x _____	
1.5% of Publicly Dedicated Infrastructure costs.	Engineer's Estimate: _____ x _____	Engineering Plan Review Fee
Plan Review Fee - Per Sheet.	Engineer's Estimate: _____ x _____ /sheet	
For each subsequent review, the fee is half of the original.	Engineer's Estimate: _____ x _____ /sheet	

The Plan Review Process can take 28-35 days for first submission/review depending on the size and complexity of the plan, and 14-21 for subsequent reviews depending on the severity of the comments.

### **Storm water Management Fees:**

When exceeding 5 acres, the flat fee is \$4,000.

Storm water Management Fee

Between 1 and 5 acres, the flat fee is \$2,500.

When under or equal to 1 acre, the flat fee is \$500.

For every subsequent review, the cost is half of the initial fee.

Traffic Impact Fee

### **Traffic Impact Study/Access Management Review Fee:**

The initial review and any subsequent review for the Memorandum of Understanding is a \$1,000 flat fee.

The initial review for the traffic impact study is a \$4,000 flat fee. Every subsequent review is \$1,000.

Plan Review Fee Total:

***Plan Review Fees, in total, are due prior to the start of the plan review process:***

## ENGINEERING FEE SCHEDULE -

### Construction Review and Other Fees:

#### Construction Administration Fee (rounded to the nearest dollar):

1% of Private Storm & Erosion Control costs.      Engineer's Estimate: \_\_\_\_\_ x \_\_\_\_\_

1.5% of Publicly Dedicated Infrastructure costs.      Engineer's Estimate: \_\_\_\_\_ x \_\_\_\_\_

Construction Administration Fees are due in total at the time of the submission of the engineering documents.

**Construction Submittals Fee:** \$1,000 flat fee for shop drawings submitted during construction.

**As-Built Deposit:**      base fee plus \$150/acre of disturbed area. Upon receiving as-builts, funds will be released.

Acres of disturbed area (rounded to the nearest acre) \_\_\_\_\_ x \_\_\_\_\_/acre = \_\_\_\_\_

**As-Built Survey:** A survey will be performed at the completion of the project which will verify the proposed elevations and alignments of the infrastructure being constructed. This information will be provided to the project design engineer for aid in completing the as-built record drawings.

**Inspection Fee:** 8%-10% of the certified engineer's estimate for all publicly dedicated Infrastructure, or the actual cost of third party inspection. Variables such as project schedule delays, may cause this fee to increase.

**Erosion Control/NPDES Fee:**      /year deposit. Unused portion will be refunded.

**City of Columbus Inspection Fee:** A base fee of \_\_\_\_\_ for the City of Columbus to inspect the site. Unused portion will be refunded.

#### Right-of Way, Storm water O&M BMP & Easement Recording Fees and Other Special District Fees:

**Street Tree Deposit:** \$5 per liner foot of total lot frontage as measured at the right-of-way.

Linear Feet of Frontage at the ROW (rounded to the nearest foot): \_\_\_\_\_ x \_\_\_\_\_/foot

**Street Light Deposit (rounded to the nearest dollar):** 5% of the estimated costs of street light installations.

Engineer's Estimate: \_\_\_\_\_ x \_\_\_\_\_
