COFFEE FILTER WATER ART

SUPPLIES

- Coffee filter
- Markers
- Cup with water and plastic pipette
- Or spray bottle with water
- Or you can just use your fingers to drip the water

CREATE

- Draw a picture or design on your coffee filter with different colored markers
- Once finished drawing, add a tiny bit of water to your coffee filter. Don't add too much water.
- Use a spray bottle, a pipette, or just drip a little water with your fingers
- The water will make the colors run and spread, and it will give you a watercolor like effect
