

2020 Q1 Report to Council

Overview

The purpose of this report is to provide Gahanna City Council, residents and interested parties with an overview of the City's finances for the quarter ended March 31, 2020. It focuses on the General Fund, which is the primary operating fund for the City, as well as, the Public Safety Fund, Parks & Recreation Fund, Public Service Fund and Capital Improvement Fund which receive income tax revenue from the 1% income tax increase passed by the voters May of 2019. The data provided in this report is unaudited and shown on a cash basis, as collected or expended through March 31, 2020.

The Finance Department has posted this report to the Financial Publications portion of the City's website located here <http://www.gahanna.gov/departments/finance/financialpublications.aspx>. This report is organized to first show a high level summary of how each of the funds that receive income tax performed followed by a comparative budget versus actual statement. This will be followed by a fund level report for all funds, detailed account information for all funds, an income tax analysis, investment and depository analysis and a final summation of the quarter. Moving from the lowest level of detail to the highest.

Key Financial Highlights

General Fund Revenue

- General Fund revenue collections are 24% of planned which is expected at the end of the quarter.
- General Fund revenues compared to 2019 have decreased by 7% or \$488K mainly due to the following:

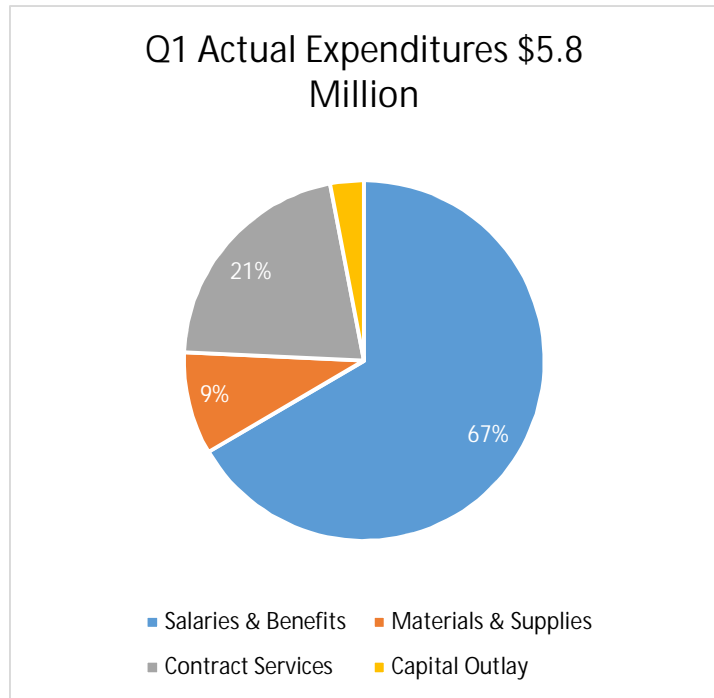

- Income tax revenue decreased by 6% or \$264K and is only 21% of planned. This will be discussed in more detail within the income tax portion of this report.
- Charges for services decreased \$335K but is 26% of planned which is on target for the first quarter. The decrease from the previous year is related to the movement of camps, pools and the senior center to the new special funds, large number of park shelter refunds and a planned reduction to the administrative charges to the proprietary funds. The General Fund charges proprietary funds 6.5% of proprietary revenue for services provided by the General Fund to the proprietary funds, such as, accounts payable, payroll, IT and human resources. This was reduced to 3.5% for 2020 to avoid a large increase in rates as Columbus increased their rates 3% across the board for 2020.

General Fund Expenditures

- General Fund expenditures are 20% of planned which is slightly lower than expected at the end of the quarter. However, when encumbrances are taken into account it is 50% of planned.
- General Fund expenditures compared to 2019 have decreased by 4% or \$215K mainly due to the following:

- Salaries & Benefits decreased by \$139K and are 23% of planned for 2020. This is related to moving certain personnel to the new funds created as a result of the income tax increase, as well as, a number of positions planned to be filled by the end of the first quarter that are being delayed due to uncertainties related to COVID-19 and the

impact it will have on the City's revenue. The new funds will be discussed following the General Fund discussion.

- Capital Outlay decreased \$94K due to the fleet replacement program and police building renovations. More vehicles were rated for replacement in Q1 of 2019 compared to Q1 of 2020. The police department locker rooms were in desperate need of renovation and this project was completed in Q1 of 2019. With all capital moving to the Capital Improvement Fund the expenditures out of the General Fund will continue to slow and eventually stop as the amount budgeted for 2020 consists only of carry-over encumbrances from past projects and capital maintenance programs.

General Fund Other Financing Sources and Uses

- The most significant difference from the previous year is the reduction of transfers out of \$3.4M. This was a planned reduction directly related to the passage of Issue 12 providing a funding source for capital maintenance and improvements. Previously, all capital was funded from available General Fund balances transferred to the Capital Improvement Fund.

General Fund Balance

- Fund balance increased by \$918K to \$18M during the first quarter of 2020. The elimination of the Capital Improvement Fund transfer and reduction to expenditures for unfilled vacancies resulted in this increase for the first quarter. Of the \$18M, \$8.9M is reserved for encumbrances and \$6.4M is reserved for emergency leaving and unreserved fund balance of \$2.6M. Unreserved fund balance equates to 1.4

months of operating expenditures however, many encumbrances are for a full year while only 1/4th of revenue has been recognized.

Public Safety Fund

- The Public Safety Fund revenue was \$221K or 45% of planned. Income tax revenue was \$128K or 42% of planned which is higher than expected. Based on an analysis of other municipalities that recently passed an Income tax increase it was expected that we would receive 65% of a full year as it takes time to achieve 100% compliance with the increase. Based on the Q1 data it appears more than 65% will be received. More details on income taxes will be discussed in the income tax portion of this report.
- Public Safety Fund expenditures were \$99.7K or 20% of planned which is slightly lower than expected, however there is a planned \$85K expense for new dispatcher workstations that have not yet been purchased.
- Public Safety Fund Balance ended at \$193K which is an increase of \$122K resulting from the over performance of revenue and under performance of expenditures as previously discussed. Of this amount \$90K is reserved for encumbrances.

Parks & Recreation Fund

- The Parks & Recreation Fund revenue was \$440K or 32% of planned. Income tax revenue was \$289K or 42% of planned which is higher than expected. This is for the same reason as previously discussed under the Public Safety Fund. Charges for services revenue was \$151K or 22% of planned which is slightly lower as a result of uncertainties surrounding programming and events as it relates to COVID-19.
- Parks & Recreation Fund expenditures were \$84K or 6% of planned as a large majority of programming and event expenditures have been delayed due to COVID-19.
- Parks & Recreation Fund Balance ended at \$463K which is an increase of \$106K resulting from the over performance of revenue and under performance of expenditures as previously discussed. Of this amount \$195K is reserved for encumbrances.

Public Service Fund

- The Public Service Fund revenue was \$241K or 34% more than planned. Income tax revenue is \$225K or 34% of planned and is outperforming as discussed previously under the Public Safety Fund. Fines and Fees are 50% of planned resulting from a large permitting fee associated with the construction of the new elementary school on Helmbright.
- Public Service Fund expenditures were \$68K or 10% of planned and is less than expected due to a delay in hiring another project inspector due to the uncertainties with COVID-19. In addition there are planned professional services for ADA and sidewalk evaluations that have not yet been conducted.
- Public Service Fund Balance ended at \$459K which is an increase of \$174K resulting from the over performance of revenue and under performance of expenditures as previously discussed. Of this amount \$263K is reserved for encumbrances.

Capital Improvement Fund

- The Capital Improvement Fund revenue was \$1.9M or 39% more than planned and as previously discussed is related to actual collections coming in higher than the anticipated 65% of a full year of collections.
- Capital Improvement Fund expenditures are \$143K or 1% of planned which is reasonable as most construction occurs during the second and third quarter of the year. When encumbrances are taken into

account it is 78% of planned. Compared to 2019, expenditures have increased by \$68K or 92% for equipment purchases, right of way acquisition and other capital costs that are not weather dependent.

- Other financing sources decreased by \$3.3M as discussed under the General Fund above, transfers from the General Fund are no longer necessary with the passage of Issue 12.
- Fund balance ended at \$12.6M which is an increase of \$1.8M resulting from the over performance of revenue and under performance of expenditures as previously discussed. Of this amount \$9.2M is reserved for encumbrances.
- Below is a list of projects planned for 2020 from the Capital Improvement Fund:

PROJECT	DEPARTMENT	2020 ORIGNAL BUDGET	2020 ADJUSTED BUDGET	Q1 EXPENDED	Q1 ENCUMBERED	Q1 BALANCE

Other Funds

While the General Fund is the largest of the City's funds, and is used as the primary source for governmental expenditures, Gahanna does maintain a number of other funds as well. The following table outlines each of the City's funds and the revenue and expenditure activity associated with each through March 31, 2020.

ALL FUNDS SUMMARY THROUGH 03/31/2020

Additional Information

Income Tax

The Income Tax remains Gahanna's largest source of revenue. Through the end of the quarter, it made up 63% of total General Fund revenue; 100% of the Capital Improvement Fund Revenue; and 71% of the three Special Revenue Funds, established for operations related to Public Safety (58% of revenue), Parks & Recreation (66% of revenue) and Public Service (93% of Revenue). On a cash basis, total income tax collections were at \$6.8M to date. This was allocated as follows:

Fund	Income Tax Revenue	% of Collections
General Fund 1.5%	\$ 4,251,867	62%
Capital Improvement .75%	1,926,489	28%
Public Safety .045%	128,433	2%
Public Service .1025%	224,757	3%
Parks & Recreation .1025%	288,973	4%
	<u>\$ 6,820,519</u>	

The allocation of the 25% to each of the Special Funds was based on the budgeted net cost of the activities in each fund.

Assuming there was 100% compliance for the 1.5% collections, this equates to taxable wages of \$283M. Assuming 100% compliance, collections should be \$2.8M for the 1% increase. The City collected a total of \$2.5M or 91%. The 2020 income tax projections for the 1% was based on receiving 65% of the 1% based on an analysis of the first full year of municipalities that had passed a 1% increase recently. However, it appears that compliance is occurring much quicker than anticipated.

Gahanna collects income taxes in three categories: business withholdings, individual/resident returns and net profit returns. The bulk of these collections, 82% for the quarter, are from business withholdings with 10% coming from individual returns and 8% coming from net profits.

The following table shows the distribution of the 1.5% income tax among these three categories compared to the first quarter of 2019.

Income Tax Type	2019 YTD (\$M)	2020 YTD (\$M)	Difference (\$M)	Pct Change
Withholding	\$ 3.72	\$ 3.49	\$ (0.23)	-6.3%
Individual	\$ 0.53	\$ 0.42	\$ (0.11)	-20.8%
Net Profit	\$ 0.26	\$ 0.34	\$ 0.08	30.8%
Total	\$ 4.52	\$ 4.25	\$ (0.26)	-5.8%

The decrease in individual collections was anticipated based on a change to the City's credit for income tax paid to another local government. In Ohio, local income tax is collected first for the municipality where an individual works via payroll withholding. Upon filing with the municipality where they live, and applying the residency tax and any associated credit for paying where they work, an amount may be due to the residency municipality.

Before the passage of Issue 12 the City had a reduced credit of 83.33% applied to the lessor of the City's income tax rate or the other government's rate. This resulted in many having an amount due upon filing and the requirement to remit quarterly income tax payments. With the passage of Issue 12 the credit was changed from a reduced credit to 100% credit applied to the lessor of the two rates. This change will result in most no longer having an amount due to the City and therefore no longer having the requirement to make quarterly payments.

The top 300 withholder accounts were analyzed for the first quarter of 2020 which represents 77% of withholdings received. The report list withholdings in total and there is no breakdown between the 1.5% and 1% however once we are in 2021 the comparison will be more meaningful. To try and pinpoint why there was such a large reduction in withholding, a comparison of the first quarter of 2019 was reviewed. It was noted that the withholding collected for the first quarter of 2019 was 6.6% higher compared to the first quarter of 2018. Upon reviewing the top 300 for the first quarter of 2019 the increase was due to multiple withholder accounts experiencing an increase. We then applied a 67% increase to each account (represents the 1% increase) to determine if all factors remained consistent, employee counts and wages, what would the anticipated Q1 withholding be. It was noted that a number of withholders remitted less than what was calculated. There could be a number of reasons for this, they have not changed the withholding amount yet, employee base has been reduced, wages earned are less either because of the previous or high earners have been replaced with employees earning less. This will continue to be analyzed moving forward for any trends.

The top 300 net profit accounts were also analyzed to determine why there was such a large increase in this area. The top 300 net profit accounts represents almost 100% of the total collections and there were 175 companies that paid net profit in the first quarter of 2020 that did not in 2019 and only 12 companies that had a reduction to net profit taxes paid. There are a number of factors that impact net profit to be taxed, including net operating loss carry forward for up to five years. So while many had an increase in net profits subject to income tax in 2020 compared to 2019 a determination as to why cannot readily be made.

The following table reflects the distribution of the new 1% income tax among the three categories for the first quarter of 2020. Meaningful comparative information will not be available until 2 full years of collection which will be 2020 and 2021.

Income Tax Type	2020 YTD (\$M)	
Withholding	\$	2.32
Individual	\$	0.11
Net Profit	\$	0.13
Total	\$	2.57

Investments

The City's cash, while accounted for separately by fund, is pooled and invested in accordance with the City's Investment Policy ORD-0098-2013 and Ohio Revised Code. Unless otherwise restricted, all interest earnings are credited to the General Fund.

The City maintains its liquid cash in "checking" style accounts at Huntington. It invests short- to mid-term funds and bond proceeds at Star Ohio, and the remainder is invested in longer term holdings which are managed by RedTree Investment Group. The chart below details the breakdown of the City's \$66M portfolio as of March 31, 2020.

As of March 31, 2020, the average duration of the City's investment portfolio was 2.02 years and the average yield to maturity of the City's holdings was 1.7%. By comparison, Star Ohio annualized yield at that same time was 1.01%. Using the US Department of Treasury historical yield curve rates for a 2 year maturity, based on the average duration of the City's investments, since January of 2020 rates have declined from 1.58% to .23% and there is no indication of a rising rate environment. So although the City's investment earnings for the first quarter are more than 25% of the amount planned for 2020, this was related to previously purchased bonds that yielded a higher return than the current environment. Because of this there is a larger portion of the City's portfolio in Star Ohio (\$18M), and CDs (\$13.8M) as they are yielding higher than federal securities. Our investment advisor is monitoring the market closely and the plan is to reinvest in securities once the treasury market shows signs of recovery and yields exceed what can currently be earned via Star Ohio and CDs. They are also monitoring policy and how the State Treasury is investing Star Ohio resources for any red flags that may make access to certain funds more difficult or that may result in extreme reductions to yields. For right now we are in a holding pattern until more is known about the economic impacts of COVID-19.

Conclusion

After ending 2019 with such positivity and excitement to provide more for our citizenry with the newly passed income tax levy, we are left in an environment of uncertainties. In an effort to try to get ahead of whatever economic downturn is coming our way we ran four different scenarios related to COVID-19 which are all dependent on how the economy is opened back up. Too quickly and we could be faced with a reoccurrence in the fall and too slowly and we could end up facing a deep economic downturn taking in excess of five years to recover. Even with the best plan we are still probably facing at least a 10% reduction in revenue in 2020 with up to three years to recover. The impact of these scenarios was presented to Council on May 4th and this information is available upon request.

Because there are still so many uncertainties about how the State will re-open and what is the right pace, we are initially analyzing how to address the 10% revenue reduction with a three year recovery with a goal to move toward the worst case which would be losses of 20% or more in revenue taking more than five years to recover. There are a number of positions that were planned to be hired in 2020 to finally bring staffing levels within the City to the proper level that have now been delayed and departments have identified a number of operational reductions that can be made totaling over \$1.6M in savings compared to the amount budgeted for 2020. Council has also taken a very important step in refinancing our outstanding 1 year judgement note to a 10 year bond to reduce cash outflow for debt service in the amount of \$2.5M for 2020. These actions are the initial steps to ensuring services can remain intact for 2020. There are also a number of pending decisions that need to be made about programming and events for the City that could result in postponement for 2020. Although not ideal, this will also produce additional savings.

We will continue to analyze the economic impacts from COVID-19 and adjustments will be made as new information comes to light. The goal is to maintain current services, programming and events where possible while keeping the community and our employees safe. Not only because of the economic downturn but also because of orders from the State regarding COVID-19 precautions and safety. This could mean many things some examples would be scaled back programming and events or postponement or cancellation; limited access to City Hall; slower response times for non-public safety related matters; adapting to the requirement for City employees to wear proper personal protection; etc. Eventually we will all overcome this and the economy will recover and it is our priority to be ready when this happens to serve all of you as was planned for 2020 and beyond.

Status of Current Finance Department Projects

- New Accounting & Timekeeping System – Phase 3, payroll; timekeeping and human resources, analysis began late in July of 2019 with a go live date planned of July 1, 2020. This has now been pushed out to October 1, 2020 due to COVID-19.
- 2019 Audit – The 2019 financial audit began in February with planning and the process is continuing off-site. Information is being provided electronically.
- 2019 CAFR (Comprehensive Annual Financial Report) – Finance began compiling the 2019 CAFR the end of February. We are anticipating a delay in finalizing the 2019 CAFR. This is prepared in house by the Finance Director with assistance from a staff member. Our attention has now been focused on the impacts of COVID-19. Our target is still June 30th but end of July possibly August is more realistic.
