

Memorial Tree Program

Trees are valuable resources and help communities in many ways. They create an aesthetically pleasing environment, provide oxygen, help clean the air of pollutants and odor, fight the greenhouse effect, and conserve energy by shading and cooling homes and buildings. They also help prevent water run-off and soil erosion, produce food and mulch, provide canopy and habitat for wildlife and help keep the atmosphere in balance. Trees can increase property values and produce a sense of community

Donating to the Tree-Remembrance Program, you can help beautify our city parks while at the same time celebrating life by planting a tree! People often wish to leave living memorials for those they have lost or to celebrate a birth of a child, wedding, or anniversary. In response to these wishes, the Gahanna Department of Parks & Recreation has established a special program to allow people to donate toward planting trees on City of Gahanna park land.

A donation of \$650 will plant a tree that will beautify our community for future generations to enjoy.

The trees are planted on City of Gahanna park land in the spring and fall seasons. The size and species of the trees planted will be appropriate to the site and will be at the discretion of the Parks staff. The Parks Superintendent will work with donors on the location of the tree. The trees are the property of the City of Gahanna.

DONATOR INFORMATION

Name_____

Address_____

City_____State_____Zip_____

Phone (_____) _____Email_____

Requested location for tree _____

Requested tree species _____

The final decisions for location and species of the tree is decided by the Gahanna Department of Parks

Plaque Personalization:
